Hope Atterton desires this Congregation & all people that shall hear of the Lord's dealings with him; to praise and give thanks to God for a series of remarkable deliverances wrought for him. The passages of divine providence (being considered together) make up a complete temporal Salvation. I have passed through the Valley of the Shadow of Death, and both the rod and staff of God delivered me. A particular relation of extreme sufferings that I have undergone, & signal escapes that the Lord hath made way for, I make openly, that glory may be given to him for his works that have been wonderfull in themselves, and marvellous in mine eyes; & will be so in the eyes of all whose hearts are prepared to believe what I shall relate. On the morning (May 1676) that followed the night, in which I went out against the enemy with others, I was in eminent danger through an instrument of death: a gun was discharged against me at a small distance: the Lord directed the bullet so that no harm was done me. When I was separated from the army, none pursued after me, as if God had given the heathen a charge, saying, let him alone, he shall have his life for a prey. The night following I wandered up and down among the dwelling places of our enemies; but none of them espied me. Sleep fell upon their eyes, and slumbering upon their eyelids. Their dogs moved not their tongues. The next day I was encompassed with enemies, unto whom I tendered myself a captive. The Providence of God seemed to require me so to do. No way appeared to escape, and I had been a long time without food. They accepted not the tender which I made, when I spake, they moved not.

20
when I moved toward them, they moved away from me. I expected they would have laid hands upon me, but they did not.

Understanding that this seems strange and incredible unto some, I have considered whether I was not deceived; and after consideration of all things, I cannot find sufficient grounds to alter my thoughts. If any have reason to judge otherwise than myself, who am less than the least in the kingdom of God, I desire them to intimate what their reason is. When I have mused, that which hath cast my thoughts according to the report I first made, is, that it tends to the glory of God, in no small measure: if it were so as I believe it was, that I was encompassed with cruel & unmerciful enemies; & they were restrained by the hand of God from doing the least injury to me. This evidenceth that the Most High ruleth in the kingdom of men, & doth whatsoever pleaseth him amongst them. Enemies cannot do what they will, but are subservient to overruling providence of God. God always can, & sometimes doth set bounds^{unto} the wrath of man. On the same day, which was the last day of the week, not long before the sun did set, I declared with submission that I would go to the Indian habitations. I spake such language as I thought they understood: Accordingly I endeavored; but God, whose thoughts were higher than my thoughts prevented me by his good providence. I was carried beside the path I intended to walk in, & brought to the sides of the great river, which was a good guide unto me. The most observable passages of providence was on the Sabbath-day-morning. Having entered upon a plain, I saw two or three spies, who I (at first)

36
thought had a glance upon me. Wherefore I turned
aside and lay down. They climb'd up into a tree
to epic. Then my soul secretly begged of God, that
he would put it into their hearts to go away. I waited
patiently and it was not long ere they went away. Then
I took that course which I thought best according to
the wisdom that God had given me.

Two things I must not pass over that are matter
of thanks giving unto God; the first is, that when
my strength was far spent, I passed through deep
waters and they overflowed me not according to those
gracious words of Isa. 43. 2; the second is, that I subsisted
the space of three days & part of a fourth without ordina-
ry food. I thought upon those words "Man liveth
not by bread alone but by every word that proceed-
eth out of the mouth of the Lord." I think not to
too much to say that should you & I be silent &
not set forth the praises of God thro' Jesus Christ,
that the stones & beams of our houses would sing
hallelujah. — I am not conscious to myself that
I have exceeded in speech. If I have spoken beyond
what is convenient, I know it not. I leave these lines
as an orphan, & shall rejoice to hear that it finds
foster Father's & Mother's. However it fare amongst
men, yet if it find acceptance with God, thro'
Christ Jesus I shall have cause to be abundantly
satisfied. Gods providence hath been so wonderful
towards me, not because I have more wisdom
than others (Danl. 2. 30) nor because I am more

4a
righteous than others; but because it so pleased
God

Hatfield. May 24th. 1676 -

Extract from letter of "Stephen Williams - Long-
meadow" (dated June 8. 1781) which accompanied
the above letter - addressed to President Stiles.

"In looking over my papers I found a copy
of a paper left by the Rev.^d Mr Hope Atherton
the 1st minister at Hatfield, who was ordained
May 10. 1670. This Mr Atherton went out with the
forces (commanded by Captain Turner, captain of the
garrison soldiers, and Capt Holyoke of the county
militia) against the Indians at the falls above
Deerfield in May 1676 - In the fight upon their
retreat Mr Atherton was unhorsed and separated
from the company, wandered in the woods some
days and then got into Hadley, which is on
the east side of Connecticut River. But the fight
was on the west side. Mr Atherton gave account
that he had offered to surrender himself to the
enemy, but they would not receive him. Many
people were not willing to give credit to his
account - suggesting that he was beside himself.
This occasioned him to publish to his congregation
and leave in writing the account I enclose to
you. I had the paper from which this is copied
from his only son, with whom it was left.
The account is doubtless true, for Jonathan Wells
Esq. who was in the fight and lived afterward
at Deerfield, and was intimately acquainted
with the Indians after the war, did himself inform
me - that the Indians told him that after the fall fight.

that a little man with a black coat and without
any hat, came toward them, but they were afraid
and ran from them, thinking it was the English
man's God! "etc etc"

My dear

I enclose you a correct copy of the
Rev. Hope Sturtevant's letter, I mentioned before.
Hoping it may be of value to your purpose.
I remain

Yrs Truly

1703 April 16. End Frary, Commissioner to take list of estates & Proposals to Northampton, in reference to bounds.

"It is well known to you, Gentles, the controversy betwixt your town & ours, & the many essays that have been made in order to a compromise; indeed, it is our hearts desire to have a neighborly loving issue of this matter, being very loath to break the unity betwixt us, and yet not willing to quit any right of bounds really due, & for the accommodat'g of the town both now & for posterity, and yet willing to yield & lay that matter so as may be to mutual satisfaction if possible, though with the loss of some of our right; and we think we have met or proceeded considerably as aforesaid towards a compliance, & why we cannot comply is more of stiffness for a little inconsiderable tract of land than will be available to either town as to the value accruing; love & peace being of much more value; you cannot but see and know ^{as well as we} that the present line you claim cannot, nor is not yours according to the General Court's grant, & none to be settled by any but their by their order & direction; therefore why should you stand to such a weak title that will only be a monument of contention from time to time, and a means to break our peace & love. The last proposals agreed on by the committees of each town (except the freedom of timber & other privileges to be at large amongst us) we judge very condescending proposals in us, especially when we do it only for peace & not from any sense of any right or just due of yours so to agree; as also, as the case is circumstanced by our situation, as you cannot but see, the line to stand as you now claim as it is unwarrantable, so extremely prejudicial to us, which hath forced us to apply ourselves to the General Court for redress of this our grievance, not only formerly but of late, & which we must be forced to proceed in & for, except a loving agreement present, which we most of all desire; Inveat your speedy answer to the premises, or if you see meet, to make such proposals as you judge meet in order to a compliance."

1739 June 15 - Capt. N. Coleman, Moderator. The church had made choice of Mr. Mr. Woodbridge Timo. Woodbridge for their minister. The town voted to concur with the church, & to elect Mr. W. Proposals to him. To give the Town lot so called, of 4 acres, Mr. Williams & N. Town Street E. Nathl Barthe, homelot S. land of said South W. Also 300 £ in bills of credit, if he continues in the ministry here during life. After his settling as colleague salary so long as he carries on only half the work, 140 £ in bills of credit per annum. When the whole work shall devolve on him, 42 £ in silver money at 6/8 per ounce, or so much in bills of credit of the old or new tenor as will purchase the same. After the decease of Mr. Williams, the ministry or sequestered land; also his firewood. Committee chosen to present proposals to him - Capt. N. Coleman, Rich Billings, Abraham Maton, Samuel Billings, Samuel Bodman.

Tuesday June 19. Report of Committee, that Mr. W. objected against the 42 £ as insufficient - could not accept of these terms.

then Voted to give him in addition 50 £ annually in silver money at 6/8 per ounce if he will take this & the 42 £ in grain or pork at silver money price, when the town desires it. Committee appointed - Sgt Nash, Maj Williams, Mr. Allen.

1739 July 13. Mr Richard Billing moderator.

Mr Woodbridge's answer, dated July 10. The species in which you propose to pay the 42£ & the 50£ is not wholly agreeable to me; yet considering the difficulties the people labor under as to a medium of trade, and their heavy taxes, I will accept your offer of the 44£ 10s in the species you propose until 1745, if it become due to me before that time, & even after that time, if a medium of trade is not to be obtained. If this sum should prove inadequate to my necessities, & my circumstances should require more, I shall expect that you will make such additions to it as my necessities call for, & God shall enable you to do. If these proposals are agreeable, & you accept them I do accept your call to settle in the ministry, depending on your united prayers to him who has received gifts for men, that he would furnish me for the great work, &c.

Answer considered. Voted to agree to the first proposal, provided there is a medium of trade that could be reasonably obtained. As to additions in case his necessities require it, & the abilities of the town enable them, Voted that they will make additions accordingly.

1739 Oct 11. Mr John Dickinson, moderator. Corns & the chosen (Mr J. Dickinson, Eno S. Dwight, Ich. Ellis, Jona Cole, Deac Dickinson) to inform Mr W. that the last proposal in his answer is a matter of grievance to sundry persons, & see if he will retract the same.

Tuesday Oct 16. Committee reported - Mr W.'s answer laid before the meeting. As some suppose that the consequences of such an obligation as I proposed may prove unhappy to me & you, I will willing not to insist on it, (that my salary should be increased as my circumstances should require, & your abilities allow,) but to let that vote drop. But if I shall want an addition to my salary, I don't mean ~~that~~ the foregoing ^{relinquish} ~~vote~~ to lay myself under any disadvantage in making application to the town for it, but that we may come into some mutual agreement respecting it.

Ordination to be on Wednesday, 2d week in November, if the public M. does not come on that week.

Nathaniel Dickinsons in Hatfield besides the original Nathaniel. After death of first one, his son Nathaniel was 1st, & this Nathaniel's son Nathaniel, born 1663, was 2d; and Nathaniel son of Joseph, I think, was 3d, born 1670, and Nathaniel, son of Samuel, was 4th. After death of Nathaniel 1st in 1710, his son Nathaniel born 1663 was 1st. Nathaniel, of Jos. 1670, was 2d, and Nathaniel of Samuel was 3d, born 1672. In Taxes, 1735 to 1739, the one born 1663 is called 1st, the next is not 2d, but Leonard D. and the one born 1672 is called 3d. The Middle one must have been the son of Joseph; he could have belonged to no other family; lived on Obadiah D. homestead. See Hadley page 330, &

Ebenezer Dickinson, who died 1730, had his house homestead S. side of Mill Lane. Widow had this. He had a homestead on North side Lane. It was east and joining homestead of Ebenezer Wells. This was divided into parcels with Wells lot; Nathan had east half of this lot, & Samuel had west side. His father owned 2 homesteads S. side Lane, one R. Bartwell's & 5 Guro's

Stephen Belding had the lot 16 rods wide, between Samuel Gillet & Philip Russell. He died 1720. His son Samuel who died 1732 had only 2 acres; of it 1/2 half house & barn; it was called half a homestead. The widow Elizabeth had it.

In 1770, the 50th lots in the Great Meadow were 124 rods long. A lot belonging to Oliver Killogg "lots of White Plains" N.Y. was set off to A. Fairchild of Northam. 4 acres - E. 25. 10. 11. Connecticut River S.

Hatfield Lots Examination Oct. 8, 1835

Between Deerfield Lane & Meadows:

The meadow fence comes up straight from river to street - 25 or 30 rods, and goes on over Kings' hill, and along the meadow to Clay Hill.

Between this fence & Deerfield Lane are 5 lots fronting on street, about 16 rods wide, probably a little more, perhaps some of them are 18 or 20. They extend back as much as 80 rods. On the rear of them commence lots fronting on Deerfield Lane south & running north to meadow.

1st Lot now a Bliss lives on it. Formerly John Bardwell, a bachelor lived here & died here. - born perhaps 1740 or 45. He was son of Moses who was son of John.

Ebenezer Merton got this lot by inheritance or otherwise. The old house was at S.E. corner - now old cellar. This lot goes over Kings' hill. Those south of it do not - south side of this lot is south to end of hill.

2nd Lot. now . . . Formerly David Wait & husband David Wait, & Joseph Wait.

3rd Lot. lately Daniel Dickinson. Formerly Benjamin Wait, childless. It was given to Simon & Asa White & they sold it to Daniel Dickinson. The old house went down by degrees. No house on it now. Jeremiah Wait owned it 1717 & 8.

4th Lot. lately Daniel Dickinson. His father Daniel, &c. had it before him.

5th Lot. Elijah Dickinson, son of Obadiah. His son Elijah. Now widow & children, &c. House is on an eminence on Deerfield Lane, perhaps 30 rods west of Street. The end of lot next to Street is low & wet, & has probably not been built on.

Then comes Deerfield Lane 7 or 8 rods wide at mouth, turns a little to north in 80 rods, & thence more.

Between Deerfield Lane & Mill Lane. There are 4 lots & houses, but there were originally 5 lots. Extend about 80 rods west, where 1st lot on N. side of Mill Lane runs on rear of these lots. About half way on North line of the north lot, another commences with a triangular end on Deerfield Lane, & runs by north end of lots which front on Mill Lane, or some of them. Beyond this are others. The 4 home lots (5) are over 80 rods wide on Street.

1st Lot. Simon White & then sons Simon & Asa. Now Solomon Dickinson, son of Daniel C. Perhaps 94 or more on street, & further west, 30 rods wide. The old fortification came near north side of this lot - there were 80 rods of fortification north of Mill Lane.

2nd Lot. Bardwells for generations. Now about 24 rods wide. See next.

3rd Lot. Richard Merton's - son Ebenezer, and then son. . . About 16 rods wide. Between this lot & Bardwells, Samuel Graves had a lot, and his son or Joseph after him, & Joseph's daughter after him. No house remembered. This is now probably part of Bardwells lot. Perez Hastings lived on Merton lot.

4th Lot. About 16 rods. Was Benj. Wait's lot, & his son John, & g. son Benjamin. Seems to be John Hawks lot & half of Town lot.

South of Mill Lane.

1st Lot - 9 or 10 rods. Old Kellogg lot. Benj. Merton after.

2nd Lot 8 or 9 . . . son Obadiah Dickinson. Jona. Smith. Deac. Elijah Merton. now Wm. Merton.

3rd Lot 20 to 24 rods. Now Rufus Smith. John Ellis, son Ichabod; his son Elisha, &c. Probably includes half or part of Daniel White's lot. Simon White lived between

4th Lot about 12. Now Israel Dickinson - the first lot that does not but on river (or last that does). Rest of Daniel White's lot.

5th Lot. 16 rods. Two Wm. Wms. Col. Israel W. son Israel. House built by Col. W. about 84 years ago, or 1751 or 2. Now Benjamin Smith. First Wm. Allen.

6th Lot. 16 rods. First Thos. Meekins. Thos. M. Jr. son Thos. sold north half & town got it & gave it to Mr. Woodbridge. John Meekins sold south half to Nathl. Smith. Son Joshua Smith had it. Dr. Lyman bought this, & the Woodbridge lot, & had all of Meekins lot, 16 rods.

Hatfield Lots

South of Mill Lane.

- 7th Lot. 8 or 9 rods. Eleazar Pirany
Deac. Simon Wait Elijah Smith 1/2 lot, maybe 10 rods
- 8th Lot. 5 1/2 or 6 rods. North part of Isaac Graves Lot. Amasa Wells lived here
old house pulled down, & now Billings building new one.
- 9th Lot. Henry Dwight lived here. Lt S. Partridge bought it. Son S. P.
18 rods wide. Seems to be 2/3 of width side of John Graves lot, and 1/2 of
Isaac Graves.
- 10th Lot 16 rods wide or a little more. Now ^{now} Billings. Seems to be half of Isaac Graves
and son John & g. son Elzathan; and Stephen Taylor or Barnabas Hurdall's
8 rod lot
- 11th Lot 16 rods wide. Now Erastus Billings. Was Mr. Alherton's. Jos Billings &c.
- 12th Lot 16 rods or thereabouts. Last Lot. Fields.
16 1/2 rods from Mill Lane down to Street running west. Perhaps a
little more
160 1/2 called in 1693 from Mill Lane down to lower end of fortification.

North Deerfield Lane 6 lots 16 rods wide were laid out. There seems to be a doubt now
perhaps the 5 lots include 96 rods. King & 16 seems to have included originally
part of three only of these lots as they now are. In 1733, John Barlow is he is Jos. Loomis
(Zeph. Wait on North Deerfield lot now 80. barlow King's hill on the South.

- Lines on two sides. The south line of Amasa Wells, 5 1/2 rod lot (Billings now building on it)
struck or about three rods above south line of Daniel White's lot. As lot lines when
was laid out this line would be 60 rods from lower end of fortification on east side, & 66 on west side.
- 2d. South line of John Wells lot corresponds with South line of Samuel Kellogg's lot. As fortifica-
tion was measured, this is 157 1/2 rods from south end on west side & 148 on East side.
Some error here.
- 3d. North line of Samuel White's strokes a few rods below Deerfield Lane. This makes 80 rods
from fort line on west side & 94 on east side, error.

Hartfield 3 mile addition, or Williamsburg

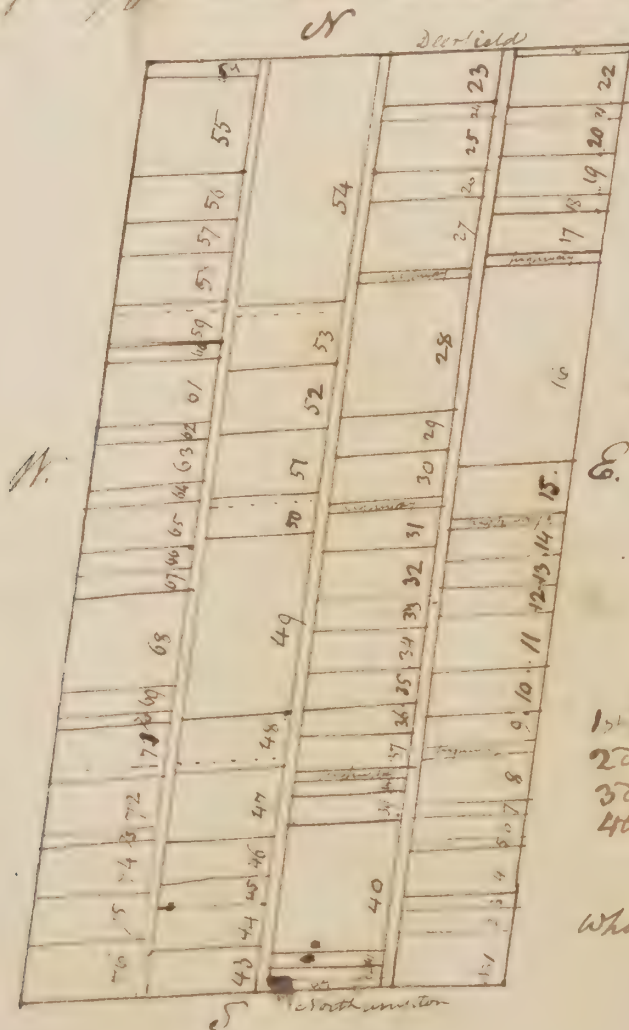

At a meeting of the proprietors of the 3 mile additional grant Jan^y 7. 1750, voted to lay it out in one division, & in 4 ranges of equal length running north & south; a highway 10 rods wide between each range; each proprietor to have all his land in one range, unless it should be necessary to do otherwise at the ends of the ranges; & highway 10 rods wide to run east & west but not to split any proprietors lot

The lots to be drawn, beginning with lot 1 at the south end of the first or east range (S.E. corner of the tract) & proceed to the north; then return to the south on 2^d range; then proceed north on 3^d range; then south on 4th or west range to the S.W. corner of the tract. Israel Williams, Oliver Partridge, Joshua Ellis, Hezekiah Billings, John Dickinson & John Dickinson were appointed to stake out the lots and the highways.

(Directions. To measure from the Crank (N.E. corner of Northampton) 1246 rods, 3 feet 3 inches; then run N. 11° E. to Deerfield line. find the monument at the N.W. corner of Hartfield original grant of 6 miles from the river) & run back to the end of the 1246 r. 3 f. 3 in. This would be the east line of the tract; it was supposed that it would vary a little from N. 11° E. or S. 11° W. The crank is said to be near Widow Warner's (widow of Samuel Warner.)

In measuring the 3 mile grant, one rod in 50 was to be allowed & 992 rods (instead of 960) to be taken for the width. The east & west highways to go through all the ranges, one near the centre, & one about half way from centre to each end. No lot to be split by highway.

Plot.

cause that the land was run east & west. 992 rods on the Northampton line or 3 miles over 960 due West, or 3 miles.

1st Range - apparently ended on Richard Billings lot No 23, and took 12.11 of his, or 1 chain 88 links. To begin 2^d range with took 4 rods.

2^d Range - ended with John Waits No 40 - took of his only £9.14.0. or 2 chains 38 links rest of John Waits was on 3^d range

3^d Range - ended with Israel Williams No 54 - took 513.7.8 & left 13.1.4 of his for 4th range.

4th Range Ended with No 76.

At upper end the lots are not over 25 or 30 rods long. Near Chas. Dickinson's lot, lower down, was 35 rods long. Still lower, Rem. Bardwell's lot (old Gillet lot) is 42 rods long. After this the river turns and the lots lengthen fast.

Lower Lot—originally in meadow, & belonged to Daniel Warner. Meadow fence was moved below it. Sold to him by Thomas Hastings.

2d Lot. 16 rods wide. Was Daniel Warner's. Also owned by Hastings family. Hastings owned both lots called 22 acres. Both lots 32 rods wide or more—probably more.

3d Lot. 16 rods. Richard Billings. Still in Billings family. Dec. 1835. Billings. 4th Lot. 16 rods. Graphamel Dickinson. 5th Lot. 16 rods. John White. Went into Daniel White's corner. Still there.

6th Lot. 16 " Samuel Dickinson senior, next John G. Gorman & wife. 7th Lot. 16 " Samuel Dickinson, in his descendants. The South half 8 rods were used by Oliver Smith also his claim on lot number 8. Smith's lot 10 rods wide. North half 8 rods wide. South half 10 rods wide. In 1840 the lot was sold to son Samuel & grandson Moses.

8th Lot. 16 " William Gull, next Jeremiah. He and his descendants. Successor Chapin. Perez, Elliott and his family. This lot & 2 of 42 rods long, now together in 4 rods, making 24 rods.

9th Lot. 16 " Samuel Belden, next to David Russell, sold to Jonathan Morton. 10th Lot. 16 " David Morton & son. Now Morton's. Called 8 acres, but not so much.

11th Lot. 16 " John G. Gorman, son of Samuel Belden. Now in descendants. Belden gave it to Selas Porter still living.

12th Lot. 16 " 12 rods 40 rods. Lot's shoreline so that 16 rods is a do. only. 13th Lot. 16 " Chas. W. Dickinson's lot. In his descendants. After South corner to Whalley the lot was vacant—no house on it—until recently Charles Smith has been on it. One or two rods of Gillet lot now with this.

14th Lot. 16 " David Gillet. 15 rods 40 rods. After him to Chas. W. Dickinson. 16th Lot. 16 " Freshman France Bardwell. Only 14 or 15 rods wide—a little of it being united with Wells Lot. N. Dickinson. He had 12 rods of Gillet lot.

Mr. Beauneys Lot. John Field.

There is some dispute in Hatfield about the lot on which Mr. Chamney lived. It seems however that his lot & Mr. Sherston's were the same - the 2d lot north of the Wotton road.

John Field (son of Zechariah first planter) made his will June 20, 1717.
p. 41 Gave use of much to wife Mary.

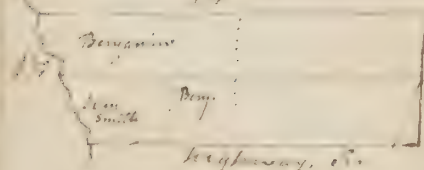

Benjamin "house barn & homestead from the little lot
son Hastings back to the ditch & the apple trees & standing on said
ditch, together with all the rest of the orchard & gardens, except that
piece I said homelot upon which my son Hechaniah hath built
an house & barn. Also that piece of homelot next to John Smith
and to the cross fence. Also that part of the lot I bought of Mr. Chaun-
cey's heirs, from my son John's cross fence to the river. Also
other lands, personal property, &c. as was residuary legatee.

To son John all the housing & land of which I have given him deeds, which I
account a full portion

To son Zechariah, that piece of the house lot on which his house stands.
Also that part of house lot from the tile to the cross fence on
this side of the little piece I have given to Benjamin, from John
Smith's lot to the cross fence. Other lands.

Son Doct. Thos. Hastings and his wife either my daughter, '3d moveable &c
 Dau. Bethiah Allis '3 of do. Dau. Sarah Peck my homelot at the
 Farms, or her brother may pay her 30^l & have it. Dau. Abigail 0th '3d move.

Remarks. The proportion of the fortification in 1693 &c. shows that John Field possessed two lower lots; and his will shows that he bought one of them of Mr. Chauncy; ~~his~~ — of course Mr. Chauncy must have had Mr. Albertson's lot. The two lots at John Field's decease 1717 seem to have been cut up somewhat as follows:

6. *Dr. Hastings had a piece of this land, or a piece of the street adjoining for a house lot. He applied to me for a piece to set a house on 1708. In 1718 Benjamin had a piece from street sons to bring out his front on with the Hastings.*

highway, or I cannot yet ascertain in what point or points of the lot Benjamin, John & Zechariah, were located. John lived N. of Benjamin in 1735, 40 &c. and John Field Jr was west of Benjamin and North of the latter road. Zechariah remained to the east of Field's about 1730. Sam was on the Chauncey lot.

Joseph Kellogg was in that field 1718 before he died 1774. His homelot & landings were called 250th. His wife Elizabeth half her 125th and other heirs of her half. We married Joseph Billings, & it is said he lived in Mr. Norton's house. Did Joseph Kellogg own the Atherton & Chauncy Homestead? It seems to have wound this Stephen Taylor homelot, north this, in 1721. Perhaps he had both - (only Taylors). One half of homelot 125th was divided at 13 heirs, 9.12.3⁴ each in 1750. It was sold to be sold for a house, purchased by some persons, perhaps Jos. Billings, - 400.

Rev. Locke Altherton had no house in invention, 1677 & 8, but of callow with Meadows, Ha
house lot 8 acres called 45. & 75 acres, in Little W. ditches, & 80 in Little river swamp.

New-Yethaniel Co. Maurice had a house, barn & homestead 100 £ one other in H.
By some means the town purchased Mr. Atherton's homestead, or exchanged for it during the
Vall. part of his life he was on a diseased state & gave it to Mr. Chalmers. Thus, he
it is sold Dec 30 1867, a few weeks after Mr. Atherton's death. The town must have homestead
it before his death. The record for some time previous to his death have a record of
The Town of Chalmers at this time had a house, barn & homestead 100 £ one other in H.

The meadow land belonging to this homestead, Mr. Chapman has the use of - not the title to the same. It is 100% allotment of meadow plain, & independent of other allotments. 2.

"Mr Chauncy's house" opposite Samuel Belling's house, no. 1591. Was not sold April 1692.

John Field had a little house, & in 1702 town voted to hire it for Thos. Bracey. They had before - 100 £ to build one. In 1705, the town granted to 3 charmen Field the land lot to be improved by Thos. Bracey & a part of John Field's second lot, 6-800, 100 square, if he built on it in 6 years. In 1707 granted him

lots opposite M^{rs} Channoy's & Golden Fields - East side of Street.

Daniel Warner had a grant of 8 acres bounded by Town's Land S. Below his lot, calling it 16 rods wide, was 16 rods or more, perhaps up to the present lane to the bridge, or South end of street. Originally meadow lots built on the street 30 or 40 rods farther, opposite John Condit, & Ursula Hallows' home lots on the other side.

The meadow fence was in 1671 laid on south side of Daniel Warner's
house lot - it had been higher up - that is, the north fence of South meadow.
The fence was regulated two or three times before; and, in 1693 the fence
against D. Warner's lot & South Meadow Gate was to be regulated with
his heirs.

In 1695 Andrew Warner (on East side) & Richard Billings (on west side) desired to build on their lots within meadow fence. Warner's was doubtless Daniel Warner's place lot in South meadow, & R. Billings was a south half of the East lower lot. Committee appointed to arrange with them.

In Decr. 1698. The town granted to Daniel Warner 30 rods of land in front
of his ~~house lot~~, ~~house lot~~ ~~front~~ Mr. Abner's house lot, to make
a Strait-front, if he will give Doc. Hartings as much of his lot, to enlarge
his Dr H's accommodation.

At same time Daniel Warner was allowed to run a fence between his lot & South meadow gate & Samuel Billings lot, from said gate to river. These votes seem to refer to Warner's meadow lot, now a homelot, (probably same that Andrew had had). Perhaps Richard Billings referred to this lot as S. Billings. In 1700 there was an addition to Widow Warner's & V. Dickinson, Jr. homelots in part, line to run from front of Doct. Hastings homelot, at corner, to north corner of front of V. Dickinson's lot. (Did this run by Billings lot to old V. Dickinson's lot, or did V. Dickinson purchase a north half of D. Warner's lot?) In 1707, town agreed that Daniel Warner might change the common fence nearest D. Daniel Warner's lot, to the south side of D. Warner's present homelot, to the river. Town did not ratify. Another vote about it. The home meadow fence, between Samuel Billings's gate & the gate by Daniel Warner's homelot was regulated 1707. March 26. Prob. 6th fence was removed as Warner desired. "Present homelot" seems S. half of R. Thorton lot.

I conclude that Mr. Atterton never owned the lot on the west side where he lived, or if he owned it, sold to the town before his death. He had a homelot of 8 acres on east side, on which no house was built until about 1700. This & all the other lands of Atterton were not sold until after the children were of age, except perhaps a piece of homelot. Where was Mr. Atterton's lot on east side? Probably next to Daniel Warner's or first meadow lot. If so Doct. Thomas Hastings bought a part of it, probably 8 rods wide in front, & built on it. If this lot on which Doct. Hastings built was not Mr. Atterton's, it joined it on the north. Daniel Warner son of Dan^l. seems to have owned & lived on the Atterton lot, south of Hastings's.

10th, South of Hastings.
The Town reserved a lot next below Dan. Warner's
when Hadley included Hatfield's. It was Thos. Bull's house lot.
Doct. Thomas Hastings must have had North half of old Atterton's lot, but
not all the way through. I think the 2^d Daniel Warner had the
South half, and I owned clear through to N. side on a part of it. Mrs
Billings told me that Jona. Warner (brother of Daniel) whom he went to
Hardwick sold their homelot to Wait's (all Hastings's). That Hastings must have
owned both lots. In 1742 Daniel Warner & Joseph Warner sold to Dr. Wait's (all Hastings's)
on 75th E. their homelot & buildings 16 a. res. Just W. River E. Hastings, N. John Dickinson S.

South end. There was a gate called Goodwye Fellows gate. Samuel
Holden's gate (men house) on west road into meadows. There
was also (I suppose) a gate on ea. side (called South Meadow gate
in note about fence above on D. Warren's land).

first grant of land out of the broad street at South end was to Thos. King Shoemaker, Dec 1693. for $\frac{3}{4}$ of an acre to set an house in "at the meadow gate at the south end of the town." Perhaps one gate was for both roads. The need door fence went through this land. Probably there was a lane left in rear from one road to the other. In 1694 after th^e grant, Samuel Beldin Jr was allowed to move his gate to the north, & have about 60 rods of land in consequence, between his orchard and meadow.

In 1696, Tho^s King's lot was given to Jos. Chamberlain. King had left the town
In 1697 22 feet added through the length of lot, for Chamberlain to set a corner.

In 1699 dec. Shambaalam was allowed to sell his lot.

92 1702 Same lot seems to have been owned by Jos. Clary. Addition to ~~the~~ granted triangular piece, from S. Corner almost to railroad gate. "Lane below the rear of Jos. Clary's house lot" mentioned 1708. Committed repeated that the house might be set in lane to Great Point, in rear of Jos. Clary's house lot, next to meadow place. (Way near S. or E.?)

In 1710 12 rods laid out 8 by $\frac{1}{2}$ rods, was laid out to Wm. Allis "in the lane leading to Samuel Bolden's gate" to set a house on.

South End - continued . Daniel White

Thos. Beecraft had some land "in the lane by the meadow fence. S. W. of his ~~John Burk's~~ house". John Burk bought Beecraft's house 1724, & petitioned for limitation to be taken off from Beecraft's land. Granted.

What lane was this? Beecraft returned from captivity into town 1714.

In 1727, Daniel White owned the homelot that had been King's, at Ambulain's, Clary's. The town granted him land in rear of his homelot the width of his homelot, so as to join with land of John Burk (above.) provided he grant enough from his homelot for a pound. The piece given lay "in town street between said White's homelot and John Burk's land" also the land the pound stands on. The line run from meadow fence at South end of White's homelot into street 4 rods 6 feet; then S. to Burk's land up to a point 9 1/2 rods - from said point to meadow fence 3 rods 9 feet - then 3 rods 14 feet.

Daniel White let the town have from his lot in the meadow, next to Daniel Warner's gate, 46 by 40 feet, to set a pound on forever.

Daniel White ^{of Windsor} bought the lot of Joseph Clary 1715 with house & a new "at S. end of street adjacent to home meadow", about an acre. £38. Town Street or lane E. W. & N. home meadow. S. [Deeds 104th page]

It was Daniel White of Windsor who bought this lot. (his son Daniel was only 17 years old in 1698; his father Daniel was dead)

Capt Daniel White of Windsor died in 1726. In his inventory Oct 20. 1726. are the following.

Zechariah Field, at his decease 1666 owed John Pyncheon £190. 10. & P had all of his estate except wife's third. Pyncheon, March 25, 1667, let out to John Field, son of Zechariah, the house, barn and homelot, or two thirds of them (his mother retaining her third) for 55 shillings in wheat; he to pay rates & make repairs of buildings & fences. This for a year.

p. 38 John Field bought the homelot & buildings of Pyncheon in 1668 for 41£ & paid Pyncheon 6£ for some goods & personal estate which Z. Field left. He paid all the debt to Pyncheon before Nov. 1670 in wheat, flour, & 20£ by Ben. Wait.

March 25 1667. Pyncheon let to Sampson Frary "who came newly from the Bay" all the rest of the land that had been Field's, the widows third excepted, for a year for 6£. Frary to pay all rates, & keep fences in repair. Sampson Frary fell in the rear & owed 30/9 for rent & seed corn. He was to pay the rates.

Samuel Daniel hired the land March in April 1668, for 6£ to keep fences in repair & pay half rates. March 1. 1668-9 Daniel hired the land for 40 or 5 years in £100 a year & pay all rates.

Wm Gull hired Pyncheon's land 1674 to 1682, 7 years (4 years by fine) for 5/6 a year & pay rates. 1683. 1684. 1685. 1686. 1687. 1688. 1689. 1690. 1691. 1692. 1693. 1694. 1695. 1696. 1697. 1698. 1699. Samuel Gaylord of Windsor — removed to Hatfield and married (widow) Mary Allis, relict of Wm. Allis, March 16, 1681-2. By agreement with the W. Allis before marriage, she was to have $\frac{1}{3}$ of 36 acres of meadowland to use, $\frac{1}{3}$ of homelot, orchard barn & house. during life; also 40£ in movables at her own disposal. Gaylord doubtless lived on her property & in her part of the house. In 1684, the town granted him a homelot on the Hill. He died in (Hatfield) 1689. Will dated Sept. 22, 1689, & proved at Hartford, not here. He gave his property at Windsor to his son Samuel, & daughter, Elizabeth, Mary, & Abigail. Half his estate at Hatfield to dau. Sarah & Alexander, wife of John, of Northampton, after wife's decease. He had probably given the other half to his wife, as he deeded it to her son & Nathaniel Graves May 3, 1692.

Hadley, p. 319 The widow of John Graves. John Graves seems to have married a second wife — called Mary Brunson in Record in 1670 (or 1671). He had by her one child Nathaniel, born June 1, 1671. (same that mentioned above) She had a child before she married him named Israel Wyatt, and from many circumstances I should infer that she was the widow of John Wyatt of Farmington, and a sister of the Barnabys. If so, her husband Wyatt died 1668, & left besides Israel, 7 other children 3 of whom married in Hatfield, viz Sarah Wyatt, Joanna Wyatt and Elizabeth Wyatt.

Con. 11. After Graves' death, she married W. Wm. Allis, & next Samuel Gaylord. Her maiden name was Brunson, but she was John Wyatt's widow when John Graves married her.

{ Samuel Graves was of Norwich 1668, feltmaker.
John Graves of Roxbury, wife 11-14 — left wife, sons John, Samuel, Jonathan and dau. Mary, Hannah, Sarah
Son John died 1645 — property to bro. & sisters.

Mass. 1 Richard Fellows, Sept 15, 1660, sold to Thos. Clarke of Boston for 100£ (and wife Ursula's consent) 200 acres, mostly meadow, granted by Govt in 1657, on the road way from Boston to Springfield, about 15 miles short of Springfield, with messuage & out-houses.

Doct. Wartsill Hastings, married Abigail Marsh, dau. of Wm. M. of Hadley 1736. He died 1748 and left a large estate & 4 children, viz John¹⁷³⁴ (afterwards Senator) Abigail¹⁷³⁹, Hannah Barnard H. Marsh¹⁷⁴², The widow Abigail was guardian, 1749. — She married Col. Bulkley of Colchester, Vermont; and Rev. Mr. Little D.D. 3 husbands. Had 1 child by Bulkley, and two by Little. The 3 girls went to Colchester and married there. John went to Colchester but returned.
Samuel 1747 & Abigail 1747, died 1748.

Hopetill Hastings, married Lydia Frary. He died 1767. Seth & Lydia Hastings, D.D., 3d homestead & house 100£. He left son Seth a physician at Whitestown; Ephraim unmarried, lived with Seth when Mrs. B. informed me; Perez died in Hatfield; Elizabeth lived at Amherst; Pabitha unmarried. Seth, a physician — lived some years in India Society, Woodbury, Conn. thence removed to Paris. Father of Thos. H. major master of the 1st Regt. of Artillery.
S. Leake Hastings, dau. of first Thomas, had 2 or 3 illegitimate children; finally married a Hadlock, a first settler of Williamsburgh, & became a very good woman. Her illegitimate Tamar Fairfield, married an Easton of East Hartford, and Eleanor Knigat married in Goshen — The Hastings would not associate with Silences.

3 Thomas Hastings was adopted by Benjamin Field, who had no wife or children. Hastings married a daughter of Jos. Belden. Sold the corner lot to W. Lloves Graves and removed to Amherst.

Hatfield.

Thos. Meekins lived about 1681.

Thomas Meekins senr. made his will May 20. 1687 and died Dec. 10. 1687. His will does not appear on record. He had one son, Thomas, and two daughters, viz Mary, wife of Nathaniel Clark, and next of John Allis Hannah, wife of Joseph Belknap.

Mr. Meekins gave his homestead to his son Thomas, and built elsewhere (not on Street) before 1672. He built a mill in 1661 and town gave him 20 acres of land for it - probably near by the mill. It is presumed he built on this land near his mill. In King Philip's war he was drawn with in the fortification, & obtained from court liberty to build on a part of his son's homestead (son now dead) March 1678. His buildings near the mill were probably destroyed by Indians, and not rebuilt by him.

1689. Children, John Allis & Jos. Belknap agreed to go by the will. (Son Thomas' children had received their portions of land, but the daughters were to have legacies.)

John Allis seems to have had Mills and some lands near by and other lands.

The Belknaps made an agreement Jan 5. 1698. Their mother Hannah Belknap died Dec 26. 1688. The land belonged to her children. Her husband, Jos. Belknap had built a house & barn on this land given to his children near the mill. He came to live in Hatfield apparently after Mr. Meekins' death - lived there from about 1688 to 1700.

Agreement 1698-9 } Mr. Jos. Belknap to have the use of all for life, and to have the housing & barn he hath built on part of the land as his own.

John Meekins had married Ruth Belknap (cousin) she was to have on the west side of Mill River, between the river and burying ground about 8 acres on that part that is the west side of the highway leading to the mill, having said highway E. & running 36 rods on said highway, a fence ditch and hedge up to Mill River in part S. land of John Allis in part S. Mill River in part N. the running round on the west end, and the 36 rods in front growing narrower back, the piece being somewhat triangular. Also several pieces of cleared land. [Smith of fence, later the hedge Belknaps had a lot of timber on a hill near Sablow's.]

Thomas Belknap to have half the remainder of the allotment on the west side of Mill River (besides what J. Meekins has) - not described - and several pieces of meadow.

Samuel Belknap to have the other half of the remainder, and pieces in meadow.

The Belknaps' land was apparently east of the way to the mill, between that way & the river, & Northampton road. ^{& some West of Mill Road.} The whole tract on both sides of the mill road is called "on west side of Mill River" in reference to the river as it runs east of the mill road, & in reference to it from the Main Street.

The Belknaps, John Meekins for his wife, & John Allis seem to have had all the land which Meekins had for building mill, on both sides of mill road.

1706.7. March Jos. Belknap senr of Glover, Saml Belknap carpenter, of Boston & Elizabeth wife of Samuel sold to Henry Dwight for 200th homestead and buildings in Hatfield, on the hill, Mill River E, said River & highway to Mill W. abut on the Street & pt on the burying ground, & pt on rear of John Hubbs' homestead S. and on Mill River & land of John Meekins, N. Also 5 lots in meadow, 4 lots in 4 divisions of woodland, & mill swamp lot 62 rods wide.

This sale evidently includes 2 lots, one on each side of the mill Road - both called "20 acres more or less" they say "we sell all except 8 acres between filling mill and ditch" (it is to be above) which is now in hands of John Meekins, meaning all that fell to the Belknaps from the Meekins estate.

Thomas Meekins senr deeded to children of son Thomas, March 1680, 8 a homestead & place at West extending to Mill River - 19 acres in the meadows. He reserved 1/2 acre of homestead during life, N. side.

Hampshire Gazette says July 11. 1827, that from
 January 1. 1790 to Jan. 1827 (37 years) the number
 of marriages in Hatfield was 181 - Annual average 5
 of births " " " 779 - " " 21
 of deaths " " " 437 - " " 12
 This was from a correspondent in H.

Zechariah Field came from Hartford to North-
 ampton in 1659 - bought out part of Joseph Fitch's lands
 including the homestead, & some other lands. He
 gave ~~his~~ the homestead to his son Zechariah.
 He had 5 pieces of land of Jos. Fitch June 30. 1659. 5 pieces of John
 Webb Oct 22. 1659; and 2 pieces of Richard Fellows, and 1 piece
 of Robert Lyman. He was owed to Hatfield - seems to have
 been there in Jan & March 1661. - was on a committee recd
 of those months, & yet selectman of Northampton Feb. 1661.
 He seems not to have removed permanently to Hatfield till 1662
 or 1663, and died in June (buried 30th) 1666, insolvent.

He left 4 sons, Zechariah, John, Samuel, Joseph, and at least
 one daughter, Mary, who married Joshua Carter Oct 12. 1663.

Zechariah, son of above lived in Northampton, apparently
 till he removed to Deerfield probably 1673, and died
 there in 1674. He married Sarah Webb, Dec 17. 1668, & had
 son Zechariah born Sept 14. 1666. Ebenezer, Oct 31. 1672. and
 John Dec 7. 1673. Not known what became of Zechariah.
 Ebenezer removed to Guilford & died there 1713. leaving several children.
 John married Mary Bennet of Northampton Nov 9. 1690. Had
 a child Mary born in N.H. in 1697. John at Deerfield 1700. Sarah & J.
 in 1703. At the destruction of Deerfield, Sarah was slain, and
 infant Mary, & son John were taken. Caught. Mary never
 returned.

John Field, son of Zechariah senior, redeemed his ^{father's} homestead in
 Hatfield & lived there. He had 2 or 3 children & settled in Northampton
 but ~~perhaps~~ he never resided here -

Zechariah Field, senior above, sold land in N.H. April 1. 1662 and
 called himself of Northampton. Probably removed to Hatfield that
 year or 1663.

Sargeant Samuel Field of Hatfield was slain by Indians 1697.
 He left 6 sons - all removed. 4 removed to Deerfield
 viz Samuel, Zechariah, Ebenezer, Josiah. Zechariah went
 thence to Northfield, & Ebenezer lived sometime at Northfield.
 Josiah removed to Somers, Conn. The other two, Thomas
 & Joshua went to Longmeadow, & Joshua removed thence
 to Bolton, it is said

Thomas Belknap took minutes of Sermons - those preached by Mr. Williams, and now & then by others - one by Mr. Partridge. At the beginning of a book of these sermons skeleton are the following: -

"Thomas Belknap
This book, God give him grace therein to look, not to look, but understand, for this is better than house or land. November ye 3. 1691."

May. Gen. Humphrey Atherton - fell from his horse in Boston & died Sept 16. 1661. (Hubbard says 1665. wrong.) - on Monday - was buried on Friday. Sept 27. 1661. son Jonathan A. adm'r. with sons in law, Timothy Mathen, James Thowbridge, & Obadiah Swift. Inventory was 900^l besides 700 ams near Wobronoco. Divided 1662 to widow, 294^l 14. rest equally to children, but eldest to have a double share, deducting what each has had - Children Baptised - over

Rest 26-3-1639	—	Increase 11-2-1641

Jonathan was older - called oldest son - perhaps other older. Gen A. was made freeman 1638. He lived at Dorchester must have been several born in England, of his children.

1752 Flat Cattle.

Moses Graves & Thomas Dickinson of Hatfield were buyers & sellers of Flat Cattle. They bought - 3 of John Hunt, Southampton, April 1752 for 38^l lawful.

Lata Account

For dieting 6 garrison soldiers sent up to Hatfield Oct. 24. 1677 & for provision in their homes. The account was made out by Daniel Warner, John Allis, Daniel White, May 14. 1679, and allowed by the Gen. Court at their session began May 28. 1679.

£ 49.16.3	

All at 5^s per week. A month called 4 weeks, but a year called 52 weeks & 1 day. The whole amount is between 199 and 200 weeks - or about 33 weeks for 6 men. Probably some staid less than that time and some more - Dr Allis had of the country 10^s in two horses and 3 saddles, and paid it in dieting these men: - This is not included in the above account. So the whole was in fact 59.16.3, or 40 weeks more than above, making 40 weeks for each of 6 men.

Mr. Wise.

Mr Chauncey

His letter in reference to a settlement in the ministry at Hatfield.

Loving friends,

If you find yourselves bound in conscience to do your utmost for the building of God's house amongst you; if you can find in your hearts to grant me these two particulars:

1. That you would condescend to entertain 16. 12, or at the least 10 men out of your common or unappropriated funds, two or three men godly & wise, fit for more public service; the rest men ordinary and of good report
2. That you would make my living comfortable, corresponding with my desires, which I hope you will find neither irrational nor burdensome; I say, grant me these two things, and during God's pleasure, I shall yield myself to be (I hope) an unwearied servant to your souls and as a faithful band in God's time to take office amongst you. So leaving you to the care of God and the conduct of Divine wisdom, I rest and remain your friend and servant, begging the continuance of your prayers for

John Wise.

"The town hath manifested that they are desirous Mr Chauncey shall have a call to come & preach amongst us for the term of a year or less (as he and the town shall agree) in order to settlement if it shall please God to incline the hearts of Mr Chauncey & the inhabitants to close with each other - and farther that the town will allow him as to his temporal maintenance 60 pounds per year and the use of the town house and allotment; and they have chosen and improp'd Thomas Meehins, Edward Church, Samuel Belden senr. and Daniel White to acquaint Mr Chauncey with the town's desire."

Feb 24

1679-80. The town gave him a call to settle - 60 sayers house & household and allotment belonging to it; if he remove the house & land to come to the town again. Selectmen sent John Coleman to inform him of the town's desire.
1680. April 2. Town again voted their desire for his settlement; and if he removed they would allow him what the living should be bettered by his expenses upon it.

(Town votes on another book)

1680-81. Jan. 21. At a town meeting, it was desired every man should declare whether they were desirous Mr. Chauncey should settle in the ministry. All present declared in the affirmative, except one - Benjamin Wait who declared in the negative. Samuel Graves Jr & Benj. Darnet came in afterwards and declared themselves hearers.

Committee sent with Mr Chauncey. - Thos Meehins, Ed. Church, Saml Belden senr, John Coleman, Daniel White, John Allen, Samuel Belden senr.

1680 June 19. Vote about Mr Chauncey's firewood see Hadley p. 144. 50 cords.

Mr Wise and Mr Chauncy continued. Mr Williams

1681 May 6. The selectmen, Ed. Church and Sam Dickinson
 chosen to speak with Mr Williams and treat with him
 in reference to his coming & settling in the work of the
 ministry among us, & to return his answer to the town.
 As to his maintenance, the former propositions are offered.

Wood. Mr Chauncy's wood to be ^{cut and} carted as Mr. Wise's was
 formerly, Nov. 4. 1681. Every team in the town that is
 capable shall ~~cart~~ ^{cut} a day when called upon under
 penalty of 6^d; and every man that shall refuse to go ordered
 a hand to cut wood when warned, is to pay 2^d/6 per day for his
 neglect.

Wood. Oct 26. 1683. All men & teams shall go & get wood for Mr
 Chauncy Nov. 5. & 6 - half one day, half the other - all wth
 neglect to pay in corn.

Aug 20. 1685. Agreed to procure 60 cords of Wood for Mr Chauncy
 every rateable person to procure his proportion at 4^d per
 cord, corded in Mr Chauncy's yard, before 1st Monday in Dec^r next.
 Delinquent to pay in wheat peas & corn. Dorell Warner
 of Hatfield to oversee the matter.

Nov. 11. 1685. (Mr Chauncy dead.) Agreed, both church and
 town, to send into the Bay for the procuring of a minister
 as speedily as may be, & chose Sam. Belcher sr and
 Eleazar Francis as messengers from the church & town
 to advise with the elders there & to endeavor if they can
 to procure a minister to come as speedily as may be
 (and that if the church own & the town agree) in order to settle him
 in the town; & for his yearly salary before settlement, they
 will allow 60[£] per year; and if he settle in office, the town
 will allow more according as his need shall require, and
 the town be capable, provided it exceed not 80[£]. (Almost verbatim)

1685

Highways

1684 Dec. 1. It was "agreed" (common term for voting) that every train soldier should work on the highways, each in his turn (except the 2 great Bridges shall be made & maintained by way of rate, small repairs excepted) also every team in the town is also to work by turns till they have gone round.
Herdsman.

1685 April 27. Selectmen to hire a herdsman in the summer to keep the cows & oxen - all cows & oxen that go in the herds walk, & are brought in out of the commons with the herd, shall pay their part to the herdsman. The pay to be half in corn and half in wheat & peas. Those that live on the hill towards Northampton to pay only half their oxen & cows herding.

School

1685 Dec 7. "The town declared by a mayor vote that they will not hire Peter Bulkley to keep the school any longer." but ordered a vote suspended till the selectmen have discoursed with Mr Bulkley, in case he do forthwith leave the school and design to go away presently, then to have his rate presently made & his pay delivered to him."

Dec 14. Voted to hire "the schoolmaster" a year more, upon the same account as hath kept hitherto.

9 o'clock Bell.

First noticed Dec 6. 1686. Samuel Field agreed to ring the bell every night at 9 o'clock. Pay not stated.

Duck

1733 Jan 16. Obadiah Dickinson of Hatfield petitioned the G. Court, for encouragement to manufacture Duck for sail cloth. House gave 30¢ bounty for 36 yards, 30 inches wide.

Boundary.

1733. May & Oct. Sessions, Hatfield petitioned that Corr. River might be their eastern boundary. Council passed it. Answered Hadley. House refused to Cor. Nov 2. Corr. River made the boundary between Hatfield and Hadley by both houses.

Hatfield Farms.

Hadley 156. William Arms & Robert Baidwell began to live at the Farms, Oct. 25. 1695.

Hadley 157. There was fort at the Farms March 1697.

Mass 1. 134. At the time of the attack in Hatfield N. Meadow, July 15. 1698, there was a fort at the Farms, and a soldier posted there.

Meadow fence, S. of Daniel Warner's house lot.

1671 April 24. Samuel Belden and Daniel White had been chosen to lay out the street i.e. between Daniel Warner's house lot and the South Meadow according to a former agreement, viz. that the first should be Daniel Warner's proportion and beginning next to his own half of that parcel of fence which half begins at the highway by the front of his own house lot from the said D. Warner's fence, the next should be Richard Billings, & thus to the river the fence should be laid out in order as the house lots are, by going to the north on the houses on the east side, & to the south on the houses on the west side, so give every man his proportion that hath any share in that meadow fence; ^{because they} ^{Some have} ^{Then, his share} have not their share in [other] parcels of fence, Mr. Atherton having his part at that end... to the bank by the river.

S. Belden & D. White brought in their account of what they had done, as follows

Daniel Warner	1. 14 $\frac{1}{2}$
Richard Billings	1. 14 $\frac{1}{2}$

about 60.	

This includes 10 house lots & houses on the East side of the street up to John Wells inclusive - & on the west side from Daniel White's down to the road to Northampton, and 3 below that road.

The lot on which Mr. Atherton lives is here called "Town lot" and is placed below Widow Fellows. They had not built his house when this took place, and he probably boarded in some family.

It appears by this that the South part of the street had the South Meadow - probably North part had North Meadow. or a large share of it. In 1671 there were but few houses north of these 22. South part of the street in 1671 was nearly all of it; that was built upon.

Some of the feet and inches are torn off. The 60 rods was perhaps only half the distance - it belonged to Warner to make half may be. This was accepted by the Town April 27, 1671

The above 22 are those who had all of the Field part of South Meadow, viz. 19 men that appear on records, and 3 allotments that fell to the town, viz those of Ozias Goodwin Thos. Bull and Edward Benton. Edward Benton's land was given to the Smith, Richard Motton but not his house lot, Thomas Bull's was given to Mr. Atherton. Ozias Goodwin's called town lot. I suspect Mr. Chauncey had it.

Hatfield House lots [See Haddley p. 139.]

"The lots in the mill swamp, that were drawn Nov. 6 1672 by the town's agreement that they should begin with Thomas Meekins s^{ur}. and so thence to Widows Fellows, and so by going to the north by the houses on the west side of the street, and to south on the houses on the east side of the street; the lots came out as followeth in number."

Here are 39 mill swamp lots (Samuel Billings not down) and 38 houses (or house lots) to which they belong. N. Worthington lived on John Whites lot, & both had a mill swamp lot, making one more swamp lot than house lot. 7 more, who had house lots, had lots, not in mill swamp, but in wet swamp or North swamp, & so are not down in this place on the record, though I have inserted them in [I above]. There were then, 1672 Nov. $38 + 7 = 45$ houses so called, or house lots. Some had no houses on them. Three are called lots, viz. Town, Danks's and Ball's, and no doubt some others had no house on them. Old Th. Meekins had a house near the mill.

Hatfield Recorders.

The early ones are not named on the records.

John Allis' record begins about 1672 and continues through the second volume to 1687 and probably later.

Hatfield Adlotition - petition for (Williamsburg)
G. Court 1695. May 29. appointed Jos. Hawley and
Jonathan Wells to view the land petitioned for
on the west bounds of Hatfield. They viewed it
and drew a plan. Old bound was 6 miles from
river - this was 3 miles farther west. They say
"they find the 3 miles petitioned for to be mountainous
land, which in time may be some advantage
to said town for commons or feeding land, and no
prejudice to the public, and in no probability
of advantage to any new plantation that may
hereafter be settled thereabouts."

Hatfield July 30. 1695.

Accepted & granted by house Nov. 25. 1695.
Concurred by Council Nov. 26

Plan of Hatfield - drawn by Timo. Dwight, Surveyor
May 1737. 3 Northampton men for chainmen.
It contains 36560 acres - equal to 6 miles by 9 and
2000 more for so much formerly laid out to
Bradstreet and Dennison, included in said tract.
(54 square miles make 34560 acres - + 2000 added = 36560)
S. Bounds; against Northampton 2264 rods to N.H. north
east corner. - then S. 420 rods to ditch on bank of Con-
necticut river; then easterly on land that Hadley reserved to
themselves to Connecticut river again [found little Point?
Conn. River. E. bound. West line 1985 rods, not square
with side lines, but in going from N. to S. inclining several
degrees to W. North line next to Deerfield has a
jog in it. Begins on Conn. River, at N.E. corner
of Hatfield runs N. 640 rods by Dedham Farms
to 2 hemlock trees; thence N. 288 rods to a hemlock;
thence west 2338 rods to N.W. corner - North line
2978 rods, or 9 miles & 98 rods. The 98 rods made
1176 acres. G. Court Jun 1738, granted it according
to plan, if not over 9 miles 98 rods from river westward.
See plans of land.

It does not appear that G. Court had ever granted any thing
for the 2000 acres, till now. It was put in by the town &
surveyor, intending to get what they could.

Examination of Hatfield S. Meadow, or East
Meadow, April 10. 1846. (Great Pontius or Pansett

This meadow, above the bank which surrounds it
on 3 sides, (all but N. side) is all ploughed land,
and almost all kept under the plough - there is
but little land in clover or other grass. It is usually
planted with broom corn, Indian corn, or sowed with
rye, wheat, oats, &c. Broom corn occupies one half, I
should think, or more. It is almost all kept rich
by manure. There is hardly a poor acre on it.

Highways. The East-highway, by Morton's, goes nearly N. & S.
about 210 rods from Morton's house to bank of Indian
(Bottom) - then across bottom turns westward to upper
end of Hadley Street. The road above bank, continued, or line
continued, would strike Hadley some 50 rods west of
the Main Street. This line across bottom - old 32 rods, new 36 rods.
The west Highway, originally the highway to Hadley, goes at
first considerably west of South, by old Fellows' corner lot &
below, till middle division lot, have passed length; then
turns to few degrees only W. of S. becomes almost S. down
to bank of Indian bottom. Goes no farther now. So all
the way the old boundary between lots of Hadley men
west of it, and lots of Hatfield men, Middle division, East of it
A Highway, turns out of this, about half the way down,
runs S. W. and a little W. of S. W., and then turns
about S. S. W. & so continues, to the bank or bottom.
Two tiers of lots built on this highway - the upper tier runs
from this road N. W. to Mill River (one a two of upper ones
run out on the N. & S. road, I think) - they run a little N. of N. W.
The lower lots on this tier become shorter - The other tier of lots
begin on Great River & run up to this road, - lines are a
little E. of S. and W. of N. - do not correspond with lines of upper tier.
These south lots are short at W. end of tier & grow longer at
the way to the highway on east end of tier.
The S. W. highway ends on bank about 15 rods east of Mill River
and 8 rods north of Great River. Lower lot, next to this
highway are irregular.

Bottom begins next to Mill River, & is seen on west side
of that river. It is along one only 7 or 8 rods wide & not
very low - was here apparently, when town was settled - is highest
next to river; River is wearing at some for some distance East,
but at 60 or 80 rods begins to gain, and willow now stand out
3, 4, or 5 rods in the water. River bank is little N. of W. along
60 or 70 rods; and of E. but then becomes about E. and W. and
bank of Bottom corresponds. The bottom continues narrow
and about the same width (exclusion of new made or making land
below the river bank) for 130 rods or more east of Mill River,
about 40 rods east of the 2500 ft. highway (above noticed.) Here
the Connecticut sets up in a kind of Cove between the
new made land & the old Indian bottom of 1662, and when
the water ends, a hollow (lower part wet, upper part high dry)
continues all the way round to Connecticut River above
Coleman's brook, pointing out the division between
the old and the new Indian Bottom

Old bottom began to widen (beyond the 6 or 8 rods) about
40 rods west of West Highway, & gradually increased - at
West highway, the higher bottom is 9 rods, and lower old one 14 rods.
So old Indian bottom was here 23 rods wide; at 64 rods N. E. of
road, 32 rods wide; at 102 rods N. E. of road 33 rods wide; at
137, 40 rods wide; at 190 rods from road 42 rods wide; 270 rods, 28 rods wide.
300 rods, near 20.

Examination of Hatfield S. Meadow, Eastfield River.

Gain of Hatfield, that is now out of water - Begins where Cove sets in, a point - about 50 rods West of West Highway. Mouth of Cove & point of land about 10 rods across. The gain against West Highway (a little above where Cove water comes now) is 30 rods; at 64 rods East of road, the gain is 6 rods wide (this is near East Highway); at 80 rods from road, 36 rods wide; at 102 rods, 37 rods wide; at 137 rods from road 24 rods wide; at 190 rods from road only 8 rods; 270 rods from road, gain is only 3 or 4 rods; 300 rods, a small strip, not now gaining between 280 & 300 rods. Then about 35 rods further, Hatfield is losing, up to the Ferry House & still more N. of Ferry House or W. of N. Then surveys all made near line between old & new Bottom. Lines are circular & meadow Bank next to ploughed land is a smaller circle & shorter than ^{one} outside of it. West Highway, or line of it, continued would strike Hadley about 10 rods west of Main Street. A South line from this highway, on the bank of ploughed land, would strike Hadley about 4 rods West of Street. Highway, it appears by this, runs but a little W. of S.

Bank around ploughed ground turns a little N. of E. north of mouth of Cove - gradually becomes more N. and between E. & W. Highways is about E. N. E. - beyond E. road, 72 rods, is N. E.; then 46 rods further (north of highway running E. & W.) ~~is~~ is N. N. E.; then 100 rods to Ferry House a few degrees East of N. say from 10° to 16° East of N. - this is end of Indian Bottoms & Plain above it.

This E. & W. highway on ploughed land & bottom is 146 rods South of the Ferry Road - above this road the bottom is almost all ploughed. The upper half is a light sandy soil. When Bottom ends & "Plain" begins, I know not. The bottom from the point at the cove (both old & new bottoms) gradually rise as you proceed E. N. E. and N. and the bank becomes less & less elevated above the bottom; the old bottom below Ferry House, after new one has ceased, still farther S. is but a few feet below the ploughed land adjoining. Bank runs out, or runs into river just beyond Ferry House.

From Ferry House S. S. W. and S. W. to East highway is 218 rods. Suppose distance between highways, on bank, is 64 rods, it makes 282 rods from West Highway, to Ferry House by bank. On Bank of Old Bottom, the distance from opposite W. road to Ferry House is 335 rods, as I have it.

On the bank of Old Bottom, the points of Compass are from E. all points to N. or thereabouts, but not much E. or N. - Old bottom was widest between 130 and 200 rods N. E. of W. Highway. New Bottom is widest from 20 to 120 rods N. E. of old W. Highway - or again of Hadley from Main Street to Middle Street - Measures are to where river now comes. Low Water would show more gain to Hatfield -

Old bank of bottom at 137 rods N. E. of W. highway is N. E. & S. W. Head S. point strikes Middle Street Steeple. At 190, East point about 20 rods N. of Coleman's brook - line of lots points to house just below brook. Meadow here is above the flood of this year & below here. Direction of bank N. 20° E. or 22° E. - Opposite 270 or 280, 40 acre meadow begins to show itself, very narrow. Bank here N. & S. - River runs East of South above here, against Hatfield homelots.

The old bottom & new are both in circular elevations & depressions, Old not much hurt by sand 3 years ago.

* 218 seems wrong. The straight line is 210. It should be less or 218 should be more

Examination of Hatfield S. Meadows, April 10. 1846.

The old Fence of Little Ponsett or Pontius begins about 30 rods N.E. of the mouth of Hatfway brook and continues near the bank of the meadow to Dewey's gutter, about 70 rods, I judge; it originally continued along the bank of the meadow all the way to near Mill River, and old Ditch & Bank remain; but at a later period, the fence turned at Dewey's brook from the meadow, & went up the gutter or near it to the Hatfield road which it followed, enclosing the pine plain within the meadow fence. The Bank of Little Ponsett varies in height, but is seldom less than 20 or more than 30 feet high. Some inequalities in the bank, & some in the adjoining land below it. The bank east of Dewey's gutter is at first a little N. of East, but soon becomes about E. and W. & so continues about a mile to the corner, within 12 or 15 rods of Mill River, where it turns to the north at right angles, pointing some 20 rods West of ~~the most western~~ house in Hatfield (Graves) as it used to be - now there is a little house farther west nearly in the line of this bank. This Bank runs north, say 70 rods, to within 30 rods (or 40) of the road then turns North Easterly along in the rear of their homelots, & gradually approaches the road, and meets the road a little east of Old Church house, now Porter - it crosses the road & continues northerly towards the Mill, &c.

This Bank may be a mile from Dewey's Hole or gutter to the turn to the north; and must be over 160 rods or half a mile from the turn to the road by Porter, perhaps 170 or 180 rods, on two sides of the meadow plain.

The Pine Plain South of Road & North of Meadow Bank is at first, east of Dewey's brook, only 20 or 30 rods wide but gradually increases to 40, 50, & 60 rods wide and at east end, where it ends against bank and meadow plain it must be over 100 rods wide. Then becomes homelots 30 or 40 rods deep, 20 rods, & down to a point, east of Porter. The western part is generally uneven and poor - some exceptions - the eastern part, for $\frac{1}{2}$ mile or more, is a fine level plain - not loose & gravelly soil, but fine & somewhat adhesive. The lots west of the road into Little Ponsett run N. and S. and the lots east of that road, when the plain is wider run E. and W. - The old Ditch south side of the plain was a large one, and the bank is still high in many places - bank always cast up on meadow side of ditch - Stumps in this bank 2 feet in diameter.

Little Ponsett or Pontius. Lots run N. 12° - 15° E. or S. 12° or 15° W. The original road near East end is still the main road - crosses pine plain & comes down the bank & crosses meadow nearly N. & S. Long lot west of it is nearly 25 rods at S. end & to a point at N. end - on first lot runs out and 2d may go through it - perhaps 2 run out also, and 3 went through. Lots east of highway run E. & W. - to river E. lower ones may be 25, 30 or more rods long - increase going north to 50 or 60 rods & upper lot next to bank is near 80 rods long, $\frac{1}{4}$ of meadow is ploughland.

Examination of Halffield Meadows.

Little Pansett continued. Has a pond in it beginning towards S.W. end, in a hollow, & continues N.E. & then East to 100 rods or more in one place quite wide; after it comes to the bank it becomes a swamp or marsh in which coarse grass, &c. grows, & continues along under the bank almost to east end. There is also a hollow in Meadow Plain above this. This pond & marsh has many trees and shrubs in one part of it. Probably no water or very little here in summer.

Meadow Plain is a handsome piece of land - has bank of meadow W. & N. River E. & S.E. & at S.W. corner borders on Lit. Pansett some 10 or 15 rods. Lots run E. & W. - lower ones are short 15 or 20. Rods long; increase soon to 40, 50, 60 & by degrees to more than 100 rods long - perhaps 120; then they become shorter at upper end. Upper end is high hard land & fences run N. & S., connected with home lots.

Mill River has a valley of some width with banks in these meadows, and the lower part & middle of this valley is much under water - cannot tell where the channel of river is - the upper part of valley is higher & above the river - river crooks much in valley. River below road at first is but little West of South but soon turns to S.W. and to some west of S.W. - when it comes to end of Meadow Plain it turns more to the south and across the east end of Little Pansett its general course runs S.E.W. - more westerly at upper end, and more southerly at lower end. Many trees about river & valley.

Mill River crosses road about a dozen rods east of Porters house, & 100 rods perhaps west of the west road into meadow at east end of old Cowles lot. Widow Fellows lot next below Cowles could not have been so long, as the road in front goes considerably west of south by these lots. The old "Plain" land in rear of these lots is that west of the bank lying in valley of the river - sandy, gravelly land, in part at least.

North line of old Cowles lot is nearly the same as the front line between the 2 roads west of it, & would strike into road to the Ferry, a very little north of Mortons house below Ferry Road. South line of Ferry Road is still meadow fence, & supported by proprietors of meadow. Between the Meadow Roads, the land is fenced N. & S. about 32 rods on east road, & more on west one.

Old Hastings lot which head of Daniel Warner, came down to Ferry road - whole or half of road taken from it. Hastings must have had 32 rods wide here in front & no more, viz. old Warner lot and old Athertons lot. Upper side of Northampton Road carried across would cut off 6 rods or more of lower side of Hastings lot. Perhaps there was a narrow road, so called, along by meadow fence, where Ferry road is.

Hill Homelots - from Mill River to west end of homelots (Graves), is 125 or 128 rods.

Halffield Middle Division lots run E. & W. & also East Division.

Later measures. I make 135 rods from Halfway Brook to Dewey's brook by present road; from Dewey's brook to Halffield homelots 360 rods; homelots to river 140 rods. From this road North to mill river straight, about 100 rods - to the mill 12 or 15 rods more. From mill up to road from Main St. 30 or 40 rods.

Hatfield Lands - from Hadley Records.

Hatfield Lands as Recorded on Hadley Book.

"Meadow adjoining the Street" - was one tract of land - called South Meadow in 1660. Wm. Allis: but in all the rest it is

"The Meadow adjoining to the Street" - as to Hatfield Settlers. Only 2 Divisions are noticed, viz.

1st Division of Plow Land. All the lots in this division have highways E. and W. Lots run E. & W. & highways N. & S. There are 3 Town lots in this division - mingled with the other 19, viz. Ursula Fellows, John (Cole), Daniel Wainer, Richard Billing, N. Dickinson Jr, John White Jr, Samuel Dickinson, Wm. Gull, Samuel Belden, John Coleman (is in boundaries John Wells,

Zechariah Field not recorded but in boundaries Stephen Taylor

Isaac Graves, John Graves, Clearan Frary, Thomas Meekins, William Allis, Daniel White.

19 are then including 3 not recorded.

5 are not in this South Meadow - or not in this part of it - John Allis, Obadiah Dickinson, Samuel Gillett, Philip Russel, John Cole Jr, 200[£] had 6 aers; 150[£] had 4¹/₂ a; 100[£] had 3 a.

2^d Division or 2^d Furlong in this meadow had highways at E. & W. ends of lots. Seems a continuation of the first d. Nearly the same names that are on No. 1. 200[£] drew 7 aers 3 rods 28 rods; 100[£] 3 a. 3 r. 34 r. Lots were apparently (judging by width) from 80 to 120 rods long. One lot in first division is 60 rods long; others have no width given. There are Town lots in 2^d Division. One cross highway noticed.

P.S. This 2^d Division was probably east of the other. See forward.
yes, it was east.

19 Hatfield Men drew lands in above 2^d & 3^d Divisions & in Indian Bottom - only 19 on Hadley Record.

Thomas Bull & Ozias Goodwin had allotments here, called on record Town Lots. Perhaps Remonts allotments were here also as town lots. Yes 3 town lots here making 22 in all, & 2500[£].

The 19 men 2175[£] (calling Col. - 100) drew 8. 144 rods in this South Meadows to each 100[£] - or in all 193 aers. The

3 Town lots in each piece would add perhaps 26 aers or 27. To say nothing about other lots & Indian Land. Hadley men drew 202 aers in this meadow. 3 Town lots were 325[£] & drew about 29 aers.

all the 19 seem not to have lots in Ind. Bottom. 2 at least had not.

Hatfield Lands - Recorded on Hadley Book.

"Indian Bottom" is in this meadow adjoining the street. Most of it had the River S. and Highway N. "Bank" is sometimes used instead of highway. Some have River E or S.E. and Highway or Bank W. or N.W. Same names, or nearly the same, as on the first and 2^d Divisions. The highway N. is called in one instance, "highway to the Indian land", and one lot has "Indian Field in part E." The width of lots is given, & according to these the length is 19, 20, 22, 24, 25, 27, 30, 35, 37 & 40 rods long - or from 19 to 40. The longest lots have the river S. 100th drew 1 a 150 rods
1662 June 30. Indian land here was to be fenced with posts & 5 rails at rate of 2 rods to 100th estate - to be set up by July 9. When purchased it was divided at rate of 1/4 acre to 100th -

"The land called Plain" was laid out to the same persons - seems to be ^{near or} in the South meadow - Lots had River lot S.E. and Bank N.W. Samuel Belden's lot had Fence, N.W. Several had their proportion next to homelot and more on the Plain. 200th drew 14 acres 110 rods, and 100th 2 a 55 rods. They seem to have had 320 rods to an acre. Lots seem to have been 60 to 100 rods long, some of them w. Some Town Land.

Wm Allis had 9 acres of the Plain, bought 8 more making 17 acres - had river lot S.E. Bank N.W.

Samuel Belden had 5 a 30 - having river lot S.E. Fence N.W. Townland SW. 8th wide
John Wells " 2 a 55 - next N.E. of B. R. S.E. Bank N.W. - 320 to an acre.
and some of homelot here.

Samuel Dickinson 2 a 55. 320 to an acre
Wm. Allis 9 a 60 + 8 purchased - 17 a 60 - River lot S.E. Bank N.W.
Samuel White 2 a 55. 320, or 1. 6th wide
John Cole 3 a 82. " " " " " " " " " " " "
Jos. Cleevers 4 a 110 r. " " " " " " " " " " " "
William Gull - 3 a 70 - " " " " " " " " " " " "

Isaac and Fred

Nathaniel Dickinson

Of the others - D Warner, R. Billings, Wm Fellows, John Graves and Isaac Graves had equal shares in rear of homelots, and John White seems to have none recorded. E. Frary now. First vote about this Plain "north of Pontius river" Dec. 16. 1661 - had to be taken in rear of homelots. Town vote. Town probably had lots here.

The Hadley Record gives Hatfield settlers no lands in South meadow except in the pieces above mentioned,

Hatfield men drew to 100th in S meadows. 8. 144

do " " in N. & Little M. 16. 21.

do " " in Plain 2. 55 as above - seems 4 1/2 a 100

Hatfield had at least 225 acres with Indian land in South meadow; at least 425 in North meadow and as above in Plain - perhaps 35 a 1/2 as called, or 70 or 80, 2 for 1. In all say 730.

Hatfield Lands, granted by Hadley.

"Little Meadow" was the name of the meadow north of the lots on E. side of town street. John Allis had a lot next north of Thomas Bracy's homelot - from highway to river - the meadow lots followed from the highway to the river, some of them - Others were in two divisions - from highway W to the bank E - and from the bank E. to river. E. Most or all of them had lots here - many had 2 small lots, perhaps all. 100 $\frac{1}{2}$ rods in one parcel $1\frac{1}{2}$ ac. - in another 102 rods. or in both 2 ac. 22 rods.

[Observation. A fine looking meadow - seems to have 60 acres or more - perhaps 70 or 80. Meadow must be $\frac{3}{4}$ of a mile long, & probably more. A high sand bank along western side. The Great Bend of the river against N. end

Swamp adjoining the Higher Meadow
These lots, several of them, had the riverett N.
and the hill or common fence S. Seemed to run
N. & S. More had riverett W. and bank E.
Seemed to run bound by the riverett or brook.
Small lots. 100 £ drew 110 rods only.

Lots were short - one of 1²a. was 35 rods in breadth?
First lot perhaps for W. side - John Graves - 2a. Little brook E.
Pond W. rivellat N. Com. fence S.

[Observation. April 20. 1846. This swamp is fine green grass land extending from the brook, issuing from S. end of pond, to the South end of the meadow, & from same brook East, to the bank or ridge next to Little meadow. This eastern part is a low low.

Great Hollow in the Higher Meadow:
Most lots had river E. and highway W.
running E. & W. — a few had had river E.
and highway W. perhaps river lot intended.
Lots small. 100[±] drew 102 rods.
one has "Great River" E.

Greenwater April 20. 1846. This green, grassy hollow is west of brook. Some at N. and probably had Gt River E. The inroad of the river, opposite School meadow, has cut off some of these lots.

To the 19 who drew in the South Meadow, John Ellis is added to the North Meadow making 20; but John Ellis like the 3 others before noticed appears only in boundaries. Only 16 have regular records on Hadley Book.

The 20 had estate called about 2275 £; Or
2175 £ besides John Allis, calling J. Coleman only 100 £
E. Frary's divisions are made on 50 £. and then 11 1/2 a
added to him elsewhere.

added to him elsewhere.
In all the Divisions put together 100^t drew 27 acres, as they
stand on Hadley Brook. In the 3 divisions in South
meadow, each 100^t drew 8 acres 144 rods ^{Full North 16. ²/₄ rods} _{Plain 2. ³/₅}
3 Town Lots (yewdown, Bull, Benton) in N. meadow, probably - making 23 persons + 2600^l

77

Hatfield Lands - granted by Hadley.

Higher Meadow. This had 1st Division. Some lots had riverett S. & other lots N. mostly Daniel White's lot N. Some had brook S.

100£ drew 1 acre 145 rods. - called 75 rods long some Daniel White's lot on south side of 2^d Division was against the ends of all the lots in 1st Division was over 150 rods long. N. Dickenson Jr. had west lot in 1st Division - was triangular, had pond and Swamp N. to a point S.

[Observation. Pond is still west. & brook that runs out of pond is S. grass land next to brook. The other plough land north. The N. line next to Daniel White's lot is now almost N. & S. E. pond widens and inclines a little east of north.

Also 2d Division. Lots had highway E. Pond W. 100£ drew 5 acres. Some lots 125 rods long, some more, 150 rods. - This was the largest Division - Lots were E. & W.

[Observation. These lots ran almost S. E. & N. W. Both west bounds (Pond) and East bounds (bank west of grass hollow) incline to east of north. Gt River was part of eastern bounds, or highway along by the river. River has made a great encroachment on east end of these lots, or some of them, cutting off probably from 40 to 60 rods in length, opposite School Meadow.

Also 3d Division. Lots had highway E. Pond W. 100£ drew 2 acres 90 rods. Some lots 140 rods long some only 100 rods. some 120.

[Observation. Call the division line between this & 2^d division both have lots running the same way. The pond turns N. E. & cuts off the west ends, & the great river has made a great cut into the east end of some of the lots. But the more northern lots extend easterly along between the Great river & the 4th division, a great distance; more than half a mile in length, I judge, from the pond, perhaps $\frac{3}{4}$ of a mile.

Also 4th Division. Some lots had swamp N. and highway S. or "Pond or Swamp" N. One has bank S. but most have highway S. 100£ drew 3 acres 32 poles. Some 100 rods long. & some 120. Lots were N. & S.

[Observation. The south end of these lots was a semicircle made by the pond & swamp, & the bank by & them. The middle or longest lots were 100 rods long or more; and they grew shorter each way to the E. & W. ends. The length of the Division E. & W. was over $\frac{3}{4}$ of a mile.

"Plain" above Great Meadow was granted by the west side - or by Hatfield, to new corners, (what had not been granted before)

[This must be the land in N. W. part of Meadow, N. W. of the Pond or swamp where are now 5 or 6 houses. It is 3 cornered - over $\frac{1}{2}$ mile N. & S. next to bank of upland. It contains probably 80 or 100 acres. South of the S. line of Old Dennis's Farm - if Dennis went so far north. P.S. Perhaps this was the N. E. part of meadow - some as Bashan.

Some boundaries in these divisions are "Land belonging to the West side." some are "Town Land." all the 19 or 20 had lots in the 4 Divisions.

[The N. end of Great Meadow is the swamp or bank & upland running circularly, N. E. & S. E. - the brook from N. end of pond runs here, and empties into Con. River opposite upper School meadow. The two corners of the present above the bank are the Plain, W. & Bashan E. next to Gt River Dennis's Farm came to the Crescent or Bank or swamp.

Hatfield Lands - granted by Hadley.

^{Perhaps these lots were in great meadows.}

Besides the 4 Divisions; some had large lots next to Denison's Farm - viz

Samuel Gillet 11½ acres - had highway S. and Major Denison's land N. about 120 r. long

John Field 11½ acres. Same bounds N. & S.

Samuel Kellogg is in boundaries here.

Philip Russell 11½ acres. ~~also~~ bounds N. & S.

Obadiah Dickinson - is in boundaries.

John Cole Jr. 11½ acres. Maj. Denison N. highway S.

John Allis had none here - had only homelot a piece by Little meadow.

None of the above seem to have land recorded except as above, & homelots. - Though John Allis had had lots in N. meadow with the 19 -

Eleanor Frary had lot here 11½ acres - Denison N. Highway S. Town W. Sam Kellogg E.

[Observation April 20. 1846. This is Bashan - a fine tract, triangular. Road next to Denison's Farm N. Connecticut River E. and the circular bank next to Swamp or brook on S.W. side, & Con. River S.

Hatfield Settlers before 1667.

To Hatfield petition 1667 are 25 names.

Nearly the same as below. Mary Field instead of Zechariah F. Barnabas Hinsdell is one.

Philip Russell, not in; John White Jr. he being dead.

John Coleman not in. Stephen Taylor not in.

Obadiah Dickinson ~~was~~ + John Field, J. Allis, S. Kellogg.

Also Thos. Meekins Jr. & Samuel Billing are in. So 4 of those below are out & 3 new ones in, making 25 instead of 26 below.

All the Hatfield men on the record are

Isaac Graves; John Couless; Samuel Britten

Eleanor Frary; Nath. Dickinson; Wm. Gull

John Graves; Daniel White; John Wells

Samuel Dickinson; Daniel Warner; Thos. Meekins

Richard Billing; John White Jr.; W. Ursula Fellows

William Allis - These 16 have regular records, and lots in N. & S. meadows.

Zechariah Field, John Coleman, Stephen Taylor are in N. & S. meadows; but only in boundaries; not recorded.

John Coles Jr. Philip Russell, John Field, Saml Gillet and Samuel Kellogg. Three have homelots & 1 large lot in N. meadow. Kellogg is alluded to in N. meadow.

Obadiah Dickinson. Homelot alluded to, & in N. meadow.

Here are 25 names in all in Hatfield, mentioned on Hadley records. Also John Allis, making 26.

25 have homelots. - John Field had none. & S. Kellogg not named.

Hatfield Lands, granted to Hadley men.
Also granted were in Great Pansett and Little Pansett. Great Pansett is the south meadow, or "meadow adjoining to the tract".

Great Pansett. Tier of lots ran from the Highway E. or S.E. to the "Rivellet" N.W. One lot has rivellet N. & highway S. One near river S.E. highway N. Some lots 65 rods long; some 86; some 56 or 58. one 32 one 70; one 83.
"Swamp or Rivellet" N.W. once used.

Highway N.W. & River S.E. is on ^{on south side} east side of meadow. Some lots 53 rods long; some 38; some 60. one 75. one 70 one 90 rods; one 85; one 60; one 80; one 45; one 70 One has river S. highway N. 50 rods long. another so bounded. One lot is 100 rods (John Dickinsons & others near it. One lot is 104 rods (Wm. Lewis farther N. than preceding This has River S. highway S. - Jos. Kellogg N. highway E. Evidently like the rest, river S.E. highway N.W. and this has a highway on upper or N.E. side. must be near the end of this Division - or quite. It is 7 1/2 rods wide & is 4 acres 140 rods. Joseph Kellogg next S. of this is 5 1/10 rods wide and is 3 3/4 acres - has river S. highway N. Adam Nichols next S. of Kellogg is 1 acre 100 rods. river S.E. & highway N.W.

[Several more have highway, Southwily; rivellet Northwily. These in preceding Tier.] Some have river N. rivellet?

In these two Divisions, viz between Mill River or rivellet and highway; and between Great River and highway all of Hadley first settlers had a lot, viz in one of these. 200£ drew 6 1/2 acres; 150£, 4 or 1 1/2 rods; 100£, 3 1/4 acres. Hatfield people had the land between the highways. Hadley people who drew here were as follows. -

Town lot in & not recorded - all 46.]

Hatfield Lands - granted to Hadley men

"Little Parsett" most of these lots ran from the river S. to the bank N. and varied considerable in length - Some 100 rods long or more and some much less. 200 \pm drew 5 $\frac{1}{2}$ acres. 150 \pm , 4 $\frac{1}{8}$ acres; 100 \pm 2 $\frac{3}{4}$ acres. - A few lots had highway at one end. Perhaps some went from Mill River, west - Some lots have only 140 rods to the acre; some have 150 only, and some have 180 rods for an acre.

Of the 47 names on preceding page, all are in this meadow but the following: Wm Goodwin (he had 2 in Great Parsett), Jos. Warriner, Richard Montague, Joseph Baldwin, Henry White, John Taylor, John Ingram & Wm. Pixley had lots here.

15. Then came 4 lots (or 5) next to Mill River that ran from river to the highway W. Then west of this highway were long lots.

Hadley Land Records.

On the Hadley Book are records of lands to the names on the last page 47.

Also to 16 in Hatfield (first named on last page but 1) and 5 more J. Coles Jr. P. Russell } 21.
John Field, Samuel Gillet, & John Allis }
Mr. Waton (Caleb 1668). 2 ps. land - 1.

Henry White's record is dated 1680. John Taylor 1673.

Wm Lewis's, 1672. Thos. Dickinson 1672, some 1670.

Jos. Warriner 1668-9, &c. These dates are of little consequence. They refer to the time of record, not to the time of grant.

Aaron Cooke has no grant whatever.
separate from Mr. Withwood's.

Hadley Homelots.

Only 41 Had homelots in Hadley main street - same as the 42 names on preceding page, except Adam Nichols does not belong to the large homelots, & Samuel Church had no homelot. Put Jos. Baldwin in his place and it makes 41, besides the Town lot. Take out John Taylor & 40 remain.

Adam Nichols, John Ingram, John Taylor and Wm Pixley had small lots at North end - making 44 or 45 with Town lot.

These 45 with Samuel Church make 45, who had lands in the meadows - last 4 a very small lots.

Joseph Warriner & Henry White came later and had no lands in the meadows about home. Do not belong to the first settlers.

Halfeld Lands - The Plain (high pine plain)

1693. It was said that the common fenced Great Ponset
4 and Little Ponset ran through the land on the plain.
which was an inconvenience to the proprietors of the Plain.
These proprietors of the plain desired to enclose it with the
meadow. Hadley voted that the fence might be removed
from where it is to the top of the hill, outside of said plain
provided no additional expense was made to Hadley, proprietors
nor to the town. It was the Halfeld proprietors of the
Plain that petitioned for this. Jan. 11. 1693 4

Widow Ursula Fellows - had a homelot & a - lying angular.
or - in back. She had a strip of land S. of her homelot -
she was to maintain the town gate, & what fence
was then belonging to Hadley - Her land joined John
Russell Jr. to the S. Agreement with her April 30. 1697.
signed by her mark, & John Russell Jr. She had some land
of Russell. [She was wide on road & narrow in rear, prob.]
The Highway over the awer was "from the common
Landing place to widow Fellows fence" 1/2
rod & aside.

Names

Town records in 1661 & 1662 call the
Little meadow, W. of Mill river, Amponchus
and several times Pontius; & the larger
meadow E. of Mill river, Napansett, or
Napansett. Also the river is named both
Pontius & Napansett.

1661. April 10. The Committee to equalize East & West sides were
Thos. Standley, Philip Smith and Samuel Porter, for E. and
Zech. Field, Goodman Allis & Isaac Greaves for W. They reported
April 10. This side (E) to have choice of either part, provided the town
would allow 40 acres more to the E. side part, than to the S. & W.
part. Town voted April 10 that W. side should have the east
side of Gt. meadow as the line was run by Mr. - & their accommo-
dations in N. meadow according to the rule that all took up land
on - & they on W. side to have 40 acres out of N. meadow more
to make that side equal with E. side, according to agreement
of committee. W. side measure in N. meadow to reach
to the little brook mouth though the line run as a rule, if
there were more land than their part came to, but if not so much
then to take their part with a straight line over the wart.

Pines. Halfeld is a pine region from bank of Little Ponset
S. to Deerfield, N. (or to Whately & including part of that)
- from bank of plain or between plain & lowland, East
and hills West - & there was much pine without these
lines.

Division of Great Parcel -

Hadley, East side, had as follows -

Between the rivulet N.W. and a highway S.E. - sometimes N. & S.
The highway next to Widow Fellows & a little of Mr. Rumbold's

This parcel may be
170 rods on the river
besides Wm. Goodwin's
corner lot.
Query. Could this all
have been at S. & S. part
of meadow? yes. West
side had the land E.
and N.E. part of meadow.
Smallest lots at W. end
some only 40, 45, 50
rods long - some 100
rods long at E. end.

Wm Pexley & J. Ingram not here. All 20 1/4 acres & 1 1/2 rods.
Wm. Goodwin 5 1/2 a. 1 Taylor 1a 48 rods & S Church 156 rods above this proportion.

Indian Bottom - continued.

Thomas Meekins had "of the old Indian land".
 On Indian Bottom, $\frac{1}{2}$ acre - John de sr. W. - N.
 John Field E. River S. - His proportion of 200 $\frac{1}{2}$ allotment.
 John Cowles. 60 rods wide John Field E. Town S.W.
 River S.E. - - - - - N.W.

It seems by these records that the "old Indian land," at first reserved by the Indians, had been purchased & distributed to the Hatfield people at the rate of $\frac{1}{4}$ acre to 100 $\frac{1}{2}$ allotment - $\frac{1}{2}$ acre to 200 $\frac{1}{2}$; 60 rods to 150 $\frac{1}{2}$. &c. Only a part of these small lots are recorded. There could not have been more than 6 $\frac{1}{2}$ acres - perhaps not over 5. [called 5 acres in 1662.]

Indian Bottom. I think, did not extend ^{much} west of the Road that went from Hatfield to Hadley. It was a narrow strip extending round from S. to S.E. and East side of meadow & probably up almost to highway, or within 30 or 40 rods. A highway, it is presumed, went round on the bank the whole length of the Bottom. The 2^d Division lots on the preceding page must have bounded east on the highway, I think. The Bottom did not contain over 50 acres, with the Indian land, I think. The length was not over 25 to 30 rods, of the lots. 50 acres 25 rods wide would be 320 rods long; 30 rods wide would be 267 rods long. Either of these lengths would go round on East side almost to home lots, or meadow then was.

The Eastern 2^d meadow Division -

Meadow Ursula Fellows lot 4 a 48 $\frac{1}{2}$ r. having River E. may be up next to Town lot of Th. Bull.
 Daniel Warner & Samuel Belden } may be below the Town lot S. of her - or they may be above her.
 3^d field. W. Allis. H. Graves. may be next below them, and those 12 in first column, still lower. Elearar & Henrys Triangular lot evidently came down upon highway & on the ~~6~~ bank of Indian bottom. - Much of this is conjecture.
 Perhaps there was reserved land enough in the bottom to carry it above 50 acres. Cannot tell how much town land there was.

Town lots in Meadows.

Ozias Goodwins home lot had allotments in the meadows.
 Thomas Bulls home lot had do
 Here are two of the "Town lots" met with in the meadow Divisions.
 Mr Alhester had Bulls. Suspect the Chauncey had Goodwins.
 Perhaps there was a Smiths allotment also in the meadows.

"Landing Place" was near Indian Bottom - perhaps in it. P.S. It was in it.

1664 Aug. 25. The 4 lots of Lewis, Kellogg, Nichols & Dickinson lay at first triangular in shape. Panset - no record to be altered, & all to rear on the river, receiving a portion of the Hollow, with others. P.S. Indian Bottom was against these lots, but narrow. They were W. of highway, used to go to Hadley.

Little Panset granted to Hudley people.

On the East side, next to Mill River, there were 5 lots running E. & W. from the rivulet to the highway; then West of the highway the lots ran N. & S. from the river S. to the bank N.

Little Panset, &c

1661. Dec 19.

The town voted to fence in Napansett meadow with the rest of the land belonging to east side of river. Two men to stake out each man's proportion, & Wm. Allis added for that portion of land belonging to west side, viz their plain lying against said fence.

Dec 26. Agreement between the 2 sides. East side to make all the fence from the south end to the east end of their land & also 80 rods more against the Plain lots. West side to make the rest to the river. This for 3 years. After 3 years the west side are to make all the fence from the east end of Pontius to the brink of the River against Richard Fellows' house. & then east side to maintain 80 rods of this fence, & the west side to maintain the 80 rods the E side had maintained for 3 years.

[It seems then was a great distance between the east end of Pontius land which East side had, and the River, - here lay the land called Plain belonging to W. side.]

1661-2
Jan 15. No man to fell any timber on the west side of Pansett River, within 20 rods of any mans fence or place where his fence is allotted, belonging to those on E. side. [This was because they wanted the timber for fencing, I suppose.]

Jan. 27. A committee to equalize the meadow called Napansett with this swamp adjoining to it, belonging to E. side, & any part of meadow & swamp belonging to those on W. side.

1662
April 3. Napanset meadow fence & set up by April 20th, fence views chosen for both sides of the river.

Some leaves gone from Hadley Book - but some there that was then 40 or 50 years -
Allusion to the claim of Bradstreet in 1662 -
Some agreement between the two sides remain.

1662
April 22. 62. The Fence again. East side to make fence to the head of Pontius & from there northwesterly 82 rods - then west side owners of the plain to make the rest "till it come right against Richard Fellows' house".

June 30. 1662. Wm Lewis & Wm Maccum to have all the swamp at lower end of Napansett meadow, west of John Barnards lot, for their part of said meadow.

1663 Dec 10. Committee appointed about lands not yet laid out on W. side. - Dec 26. East side offer to W. side for year ensuing, &c. See next page

1664-5 Feb 13. The 80 acres above to be equalized and made fit for measures. [The 80 acres is not above but in another book.]
1665. Nov 7. The sequestered land to be laid out.

Mr Bradstreet's tract.

1662 Dec. 16.

The Town allude to the Meadow on the west side, being granted to Mr Bradstreet - at last session of C^t. Inhabitants resolve to see all lawful means to move the court to reverse said grant, & to clear our right to the land.

Committee chosen to act in the case - viz. Selectmen Williamell, Jr. Mr Goodwin, Lieut. Smith, A. Bacon, Will. Leebis, Isaac Graves, John White, Jr. - a major part to act & determine.

1663 Dec 26 Eastside offer to W. side, that for the year ensuing, the West side shall have the use of Little Panget for their present supply; and if the meadow granted to Mr Bradstreet be not recovered by suit or purchase before next Court of Election (or next June perhaps - Deputies were expected to send up word,) they on W. side to receive their proportion of lands in other lands on W. side. Westside voted to accept this proposition.

1664 April 4 The town gave D Smith power "to purchase the higher Meadow (of Napanse) of Mr Bradstreet." He is not to exceed 200£.

1664 June 16. D Smith, the deputy, informs them of the purchase of the Higher Meadow of Mr Bradstreet. It is forthwith to be equalized for measuring - & every man's portion to be laid out. (Com. to lay out - for the W. side.

Aug 25. Voted rate of 100£. for Mr Bradstreet, & 9£ for deputy.

1664-5 Jan. 25 Voted to pay Mr Bradstreet remainder next spring

1665 Nov. 7 Line between land purchased of Mr Bradstreet & that of Mayn Denison to be laid out.

1664 March 25. Indian Purchase

Zach. Field had purchased a tract of the Indians "above Mill Brook" - & presented it to the town. (Com. to see about it, & how much Field had disbursed.

April 4. A committee to hear Zach. Field's complaint against the town - he complains of being wronged.

1665 Sept. 25. A committee to see what is unpaid to Mr Bradstreet. The amount paid to him does not appear. Only one rate of 100£ noticed. - ~~The~~ 100£ due to him was to be paid "before next winter" probably the wheat sent to Hartford Sept 1664 was for the 9£ for deputy - Was there a rate for Bradstreet in Spring of 1665? I think there was of 100£.

1674-5 Jan. 11. The town voted to send down to Mr Bradstreet the 26 he claimed to make up his complement of 200 pounds. [They paid him 200£]

1687 Aug. 29. A committee was chosen to give a deed to Simon Bradstreet Esq. of the "1000 acres of land granted to them by the General Court" & to pay it over to him "in part of pay for his farm of 500 acres"

East and West side - Controversy.

1665 June 6. Town meeting. They agreed to be one and carry on the work of the town & church together "until the Lord make it appear that one part of them have a call to make a society of themselves". Voted "that the meeting house shall stand now in or about the place where it's wrought and framed."

1666-7 March 5. West side had sent in a paper, dated Feb 25, with some "motion" in it. East side desire to speak with them about it - as speedily as the season may permit. Selectmen to call a Town meeting.

Letter from East side to West side, dated April 25, 1667. East side had chosen a committee to act in the case presented to them in the last paper, "to fit the same for an issue that may be according to God". Think the case is not ripe for the Court - request the W. side or a committee from them "to afford us a meeting tomorrow at one o'clock at the meeting House then & then to confer about the said case." &c.
 "Went yours in all christian duty" - Henry Clarke, Saml Smith
 John Russell Jr.
 Wm. Goodwin
 Peter Tilton.
 And. Bacon.

"Then for John Cole sr. & Daniel Warner the communicated to them that subscribed the paper."

1667. April 24. (Day before preceding) East side chose a committee, Mr J. Russell Jr. Mr Will. Goodwin, H. Smith, Mr. Clarke, Andrew Bacon & Peter Tilton, to consider the case presented by the West side in their paper wherein they signify their purpose of going to court, & to act about the same according to their discretion, & make report.

April 30. East side chose Mr John Russell Jr. to go down to the Court as an help to the Deputies in the case that may be presented to the General Court by the West side. - The former committee to draw up an answer to the West side which the inhabitants may subscribe.

Little Pauset 1670-71.

There were 2 highways lying near Thos Wells lot in L.P. - one running from upland to river, and one from this highway by the swamp side - the might snow both perpetually.

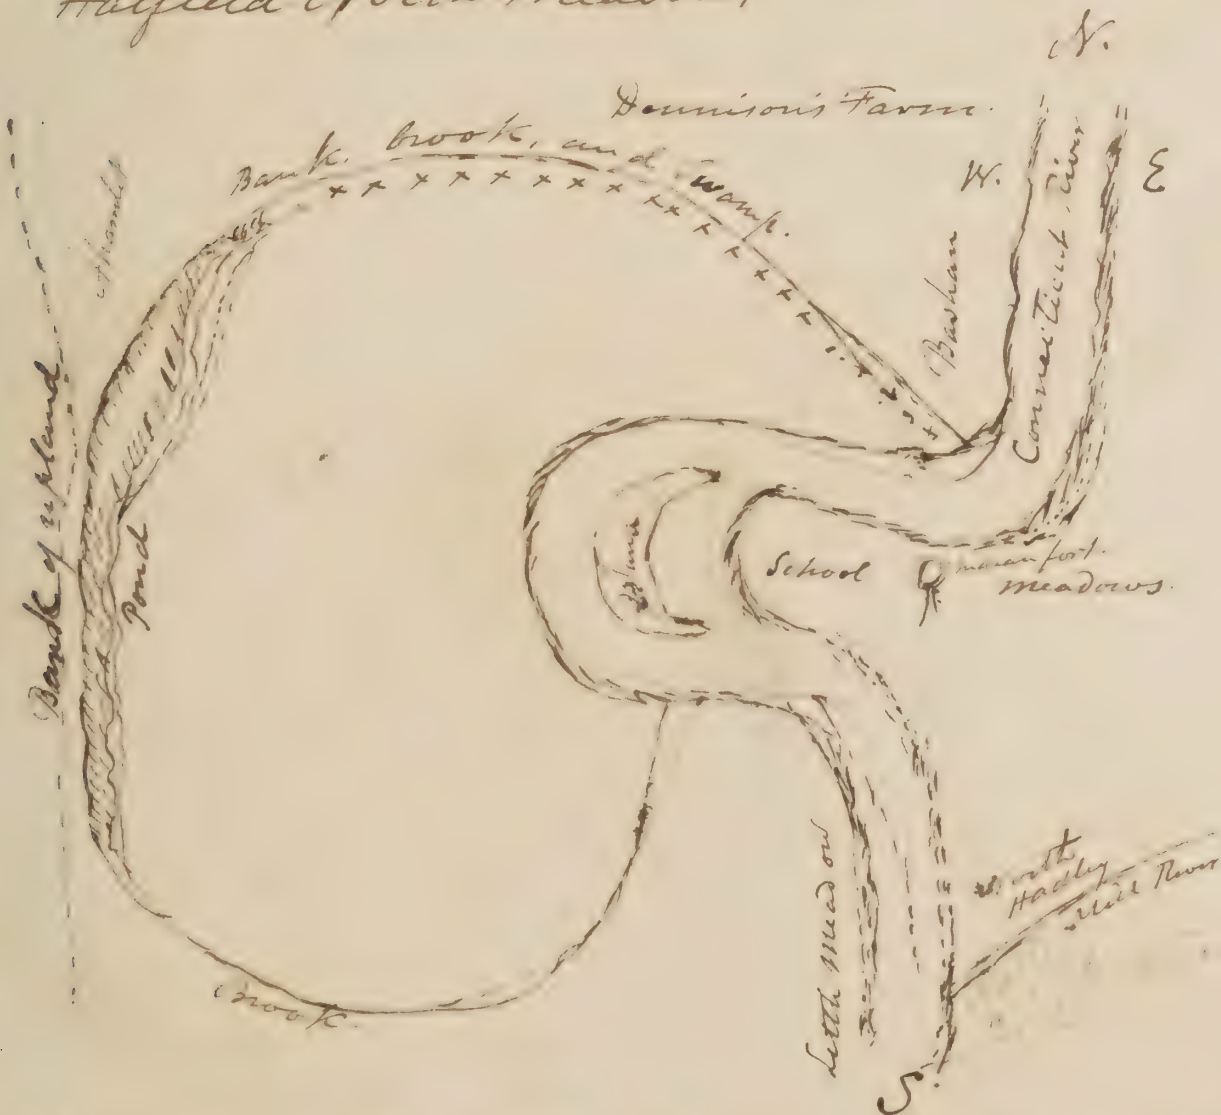

Hardly people carted out their Hay through Hatfield, from Lit. Pauset, or denied to, & wanted a way that was convenient.

Hatfield Pond. April 20. 1846

89

This lies along next to the high bank of the upland on the north side of the North meadow, beginning near the south end of the meadow in the vicinity of Cow Bridge. It is less broad and deep than formerly perhaps, owing to draining. No brook of any importance flows into it - it is fed by springs from the lower part of the sand bank west of it, and a brook flows out at each end. For near a mile it is out a few rods from the high bank, where the old common fence & ditch is - from 3 or 4 to 6 or 8 rods, & it is perhaps perhaps from 6 to 10 rods wide - this nearly N. & S. - has some bushy swamp by its sides. The pond & bank turn toward N. E. in proceeding north, and the pond & swamp become 30 or 40 rods wide, but beyond this the pond ceases or becomes a brook with more or less swamp by its sides, which turns to east and south east and empties into the Connecticut opposite the upper School meadow, after forming almost a semicircle. This was formerly a hedew swamp, but most of it is drained & cleared - It has a circular sand bank or loamy bank, on all the north side of it.

Hatfield North Meadow.

This meadow is probably 1/2 miles or more N. & S. from brook to brook or rather from bank to bank; and in some places, E. & W. it must be a mile or more. It may average 480 rods by 220 rods, including Little meadow, Basham, &c. or 660 acres. What is within pond & brooks cannot be 500 acres I think but over 400. This is mere conjecture. Dennis's Farm was north of Basham & of the bank of the swamp. It lies now separate, Basham from Dennis's Farm, there were 2 old roads to this farm & Basham - one went on west side of pond and through hamlet; the other crossed the great meadow & the swamp & bank 80 or 100 rods below the present road to Deerfield; at upper or West point of Basham. The present road to Deerfield has been made but a few years. Dennis's Farm seems to be included in Hatfield.

Hatfield Tractitions - from (old Mrs Billings) & Edith Fitch. 93

A negro called Kidd, was with Kidd the pirate; had once belonged to Cornet White; visited Hatfield when 103 years old. Was not hung because he was a slave - One of Kidd's men came up to Northfield, named Bradish. Belding of Hatfield took him and he was hung at New London with others. 70 years ago (about 1760) 2 honest men at Windsor, Con. Uriah & Madish Loomis got some money in Hartford meadow, which had been Kidds. When they struck the spot, all sorts of noises were heard; they got 17th gold and much silver (Mr Fitch believed this.) They were led to the spot by a strange very wicked man - Mr Fitch believes in witches. Wells was taken out of White's chamber window by witches, they rode him all the way to Colchester - they bridled him & put bits in his mouth. (Mr Fitch believes this.) His mouth was sore after it, & his forehead bruised. [This is all written.]

The Rev. Mr Doddard's Daughter, who was wife of Rev. Wm. Williams told Mrs Billings that she had often been from Northampton to Hatfield on foot to attend the (week lecture, (lectures once in 6 weeks) Mrs Billings remembers her; she used to visit at Zechariah Billings' - a dignified, sensible woman. 6 Towns united in 6 weeks lectures. Mr Williams told Mrs Billings many things

Old preachers, Mrs Billings said, were not very animated and awakening. Mr Hubbard, of Northfield, more so than most others. She had heard the famous revival preachers from Connecticut, Pomeroy. (of Hebron.) Col. Israel Williams prevented Whitfield from coming to Hatfield, but Hatfield people went to hear him elsewhere, none the less. His voice when preaching in Ha Alley was heard at Hatfield.

410 | They had 6 weeks lectures when Mrs Billings was young. The towns united, were Northampton, Hatfield, Hadley, Deerfield, Sunderland - does not recollect the other.

Mrs Billings remembered Col. Eph. Williams - he made his home some years at Col. Israel Williams - tried to get the (Colonel's) daughter that married a Marsh. Mrs B. says Col. E. Williams sometimes got drunk, & she would not have him. He was much beloved by soldiers - she had seen them run to salute him by firing, when he was in the street.

Mrs Billings, widow of Silas Billings, I called 88 in Oct 1835, (See note book Oct. 8. 1835) - so she was born about 1747.

Messengers to Canada

1712 July - Col. Partridge sent Samuel Williams (son of Rev John W.) Jonathan Wells, Eleazar Warner and John Nims to Canada, about an exchange of captives. Williams died soon after his return.

In 1713 Nov. allowance for their service & expenses 30£ to Rev. J. W. (his son Samuel dead); Wells and Nims 11.10. each; E. Warner 13£.

1713 Oct. Rev John Williams and Maj. John Stoddard appointed to go to Canada, to get the English prisoners together, so that they may be sent home by water in the spring. They to have 4 able men & an interpreter to proceed forthwith. Mr W. sailed or S. were then in Jan. Feb. March, April May. - a brigantine sent for them & captives.

In the first division the width of each lot is 1½ rods to a common through the whole - as N. Suttleffs 8½ commons are 12½ rods wide, & so of the rest.

In the 2^d Division, each man has the same No. of Commons as in 1st, but each common is two rods wide, as Godfrey Nims 14 commons are 28 rods wide, & so of the rest. The lots in this Division are numbered according as they were drawn.

I am not certain which is "left hand" of the highway.

Of the 50 names, 7 or 8 did not live in Deerfield (but owned lands there) and several were ~~not~~ living.

In proportioning a meadow fence about the same time, or a little later, 1689. the following names appear in addition; Isaac Sheldon, Bartholomew Hinsdale, John Waller, John Severance, David Hoyt, Mr Daniel Allen, John Root, Hezekiah & Jacob Root, John Allen, These owned meadow land, also Martin Smith.

The commons seem to be the same number in these Divisions as in the meadow;

Timo. Nash lot 8 rods wide, was to run from great river to west line of town; and David Hoyt same, next to heirs of John Allen. This was probably first laying out.

P.S. It appears from deeds that the east side of the road was the 1st Division, or on left hand. Thos Hunt's lot 13½ C. commons was 20½ rods wide, when sold to the commons, about 1720, & East of road. Hunt's lot in 2^d Division on W. side had same man, Broughton & Northam N.S. according to deed. How could this be according to the numbers?

was run between 1720

Deerfield.

394 rods (with feet & inches omitted)		

Street was regulated 1699, by east side. From north end the line was to go by the front of Simon Beaman's, Mr Porter's of John Stubbins homelot to the point of the meeting house hill at the front of Samuel Carter's homelot; thence to south end of the street ranging with Wm. Smead's barn. The west side of the street was to conform to this line, & be 20 rods from it. The street in front of Benoni Stubbins homelot, Mr. Williams homelot and Town homelot was to be 20 rods wide from east line above; except what the town has exchanged with B. Stubbins. (The town gave B. Stubbins & D. Hoyt some land in front for some time past.)

Beny. Hastings' heirs - John Arms. - William Arms

Persons. Dear John Sheldon & Dear David Hoyt were the first Deacons of Dunfords. They were succeeded by Dear. Eliezer Hawks & Dear. Thos. French.

Some persons had houses in the Great Fort, separate from their home lots. Joseph Morton of Deerfield, 1709, died with homelot & other land, + "a certain house now standing in Deerfield, Great Fort".

Dudg. 111 } Martin Kellogg to Jos. Severance, a house & lot East side, 5th.
"within the Great Fort" (that is, the house in the fort) 1710. This house was on a regular homelot.

Original Grant

General Court granted May 1673, to inhabitants of Pocumtuck, over
 Dean Hendle's Survey, in many sections, an addition to the 8000
 acres granted to Dedham, so that the whole may be 70000 acres
 provided any able orthodox ministers be settled among them, & a farm
 of 250 acres be laid out for the country's use. Dr. & Mr. Allis, Thomas
 Oliver, Mr. Sam. L. & Isaac Graves, Dr. Samuel Smith, Peter Tilton
 & Samuel Hendle, appointed Committee to lay out the Town, to aid the
 inhabitants grant land, & order prudential affairs, till they shall
 have met persons among themselves to manage their own affairs.

Hatfield Bounds, in General Court Oct. 8. 1672. Committee appointed
 May 15. 1672 had reported that the south bounds should be a little
 brook called Sugar-loaf Brook, at the common place of passage, &
 so run east to Great river, and west two miles into woods. This
 took some from Pocumtuck, & the committee allowed the proprietors
 as an equivalent, a track on N. side of Pocumtuck river from the
 mouth of the river called Green River, a line to run east one mile
 west one mile and north three fourths of a mile; the whole to be
 two miles long & $\frac{3}{4}$ of a mile broad; & so to have more by way
 of Pocumtuck river at the end of their property, & run on a east
 line to Great river & extend in a south line two miles.

Approved by Court. Peter Tilton, Wm. Clark, Sam. Smith Committee
 Previous Hatfield was to have 6 miles north from Northampton
 north bounds; but this encroached about $1\frac{3}{4}$ miles on Pocumtuck
 proprietors as they had run the line; so a committee was ap-
 pointed to adjust the affair.

1680 March 30. General Court having ordered that committee be ap-
 pointed to view the new plantations; the county court at request of
 some proprietors of Deerfield, appointed Dr. Wm. Clark, Dr. Peter Tilton
 Dr. John Smith, Medad Pomeroy & John Allis to act as a committee
 for Deerfield. Any three of them provided Dr. Clark & Tilton have the
 Green River grants. The south side of street began at west end
 Ebenezer Wells lot; David Hoyt's lot; Wm. Brooks; Scott's
 Edward Allen 5th; the rest on N. side. began at west end
 Samuel Chase 1st; Will lot 2d; Jos. & Robert Poland 3d & 4th
 John Swannear 5th; Jos. Hull 6th; John Allen 7th; & finally in
 all laid out. There were households.

1694 5. David Hoyt, John Hawks & Henry White appointed to view
 the line of Town Street - making it 6 rods wide, except on
 meeting house hill, it is wider.

1696 Henry White had 20 acres on the south of the meadows on
 west side of highway to be in length from house fence to the
 foot of Long Hill.

Deerfield.

Mr. Mather. Captain Stockwell, 1684, claimed something from
 the former inhabitants of Deerfield for boarding Mrs. Mather.
 20 acres granted to Stockwell on Green river, now claiming 106.
 Bound north on hill - with side of brook that comes out of pond
 and runs up; east on hill on east side of green river; west on
 a st swamp; to river south to another 40 acres. Nov. 1684

1694. Philip Mather engaged to town his parcel on Green river
 1695. Nathl Brooks " " to " " " 20 acres on do. :
 1696-7. Joseph Gillet gave all stream - 90 rods long & 17 rods wide
 abutting on meadow fence & on long hills at the ends.

Mill. Dec. 9. 1693. Joseph Parsons agreed with John Cutting
 p. 112 Brown Suttons & Mrs. Barnard to build a mill in Deerfield.
 - a substantial corn mill, on the stream where the dam mill
 is to be ready for grinding by first of May 1693. Parsons, the
 town to toll 17 1/2 p. 100 gross except wheat & barley mill.
 - to saw 1/4 of wheat, 1/18 of barley & all & 1/4 p. of proceeds.
 & Parsons had to keep the mill in grinding order, or if he should
 it, it shall fall to the town (valued by him, or 4000 lbs.)
 Parsons was to be paid for the mill; he to have none stream
 except sawmill - he was to give with the sawmill 1/4 of the

Notice of it in John Pynchon's Account book No. 5. He has the following:-

"Rates at Pacomtuck alias Deerefeild, on my land there.

this year 1675, I allowed

It may be inferred from these minutes, that Mr Mather's first year in Deerfield began in December 1673. He had probably been preaching there some time in 1673 before December. He continued till the settlement was broken up in Philips war in 1675, about August.

They were building or preparing to build him a meeting house, in 1675.

They had a "little house" where they met for public worship in 1675, & probably in 1674.

The ministers Tax 1674 was not far from 2% on a Cow Common, as is evident from Pynchon's tax. This would make the whole a little over 50£ — Probably the salary was 50£.

Mr Pynchon gave Mr Samuel Mather credit for his 2 rates to maintain him at Deerfield for the years 1674 and 1675, ending in Dec. r. viz £ 3. 18 and £ 3. 11. He seems to have paid only the first rate & he did that by Deerfield people, viz. Samuel Hinsdale, Sampson Frary and Goodman Stockwell.

1674 Nathaniel Footes agreement with Pynchon He of Hartford,
Dec 31 He was to build a dwelling House at Pacomtuck on Pynchon's land, 29 feet long & 21 feet wide & 10 feet stud. He to do all carpenter work from felling to finishing. For closing & finishing all (as Joseph Leonard is to do; he to do all casting. For all the work well done & the house finished (except nails, stonework & chime) he is to find materials. I am to allow him 30£ but he is take 3£ of Goodman Meekins & have his sawing of him. The rest I am to pay him in Pork at 65¢ a barrel. Dec. at Hartford, not above 30¢ a barrel pork, the rest in corn or goods or pay to his content. The work to be done by April come 12 months." He wrote a decent hand

Samuelson Thayer is called of Paconituck, 1673. He lived in Hatfield 1666 & 67. 1668. He is said by Pyncheon to have "newly come from the Bay. Hired of Pyncheon, Jeremiah Reed's meadow land in 1667 for 6th & 1/2 p. rates. Gained 30 bushels wheat to Hartford at 4th 6th to pay the rent. He paid Pyncheon his book account by making 38 rods 5 rail fence at Deerfield, 2th per rod. 76th. He mowed Pyncheon's meadow at 2th in the 9 Commons, in summer of 1673, & gave him 10th for the grass.

1672 (39)
Feb 5 } Pyncheon agreed with Joshua Carter to do all his fencing at Paconituck for 18 cow & 4 sheep Commons; and for his 9 cow common, & for his farm lot. What is capable of ditching is to be ditched - all where the land will bear a ditch is to be ditched. I am to pay for this ditching 1th per the ditch to be full 4 feet 6 inches wide at the top or rather wider; the bank to be well made, depth as usual to width. Where the fence is made with posts & rails, 5 rails, I am to allow 2th per rod. Other fence as log fence, &c to be as we can agree, or as shall be judged meet.

Jan. 28th
1669-70 } Agreed with Joshua Carter that if he pay me 2th per cow common for 15 or 20 Commons at Paconituck, in pork at 56th per barrel at Hartford, in the best flour that Goodman Hall but ^{make} at 12th per hundred, or at Hartford, or in good wheat, at least 10th this spring & the next by May come 12 mo; in case Dedham accept of him, I engage 15 or 20 Cow Commons.

1670 June 7. We agreed that the cow commons should be 20, viz. those 20 I have together in one lot. I engage to take Lieut Clark's bill of 20th for the land,

Carter is charged for 20 cow commons, 20 pounds, & has credit for 20th by Lieut Clark's bill.

1673 Aug. 19. Pyncheon agreed to exchange land at Paconituck with John Earle. — Earle to have one of my homelots that is near the church lot being near Caerch (or quarter) which is 28 rods broad for which lot fencing which I have made out, viz. the 28 rods of 5 rail fence. I am to have of him the meadow over to me, for this homelot, his meadow land against Eagle Brook over the river being near 8 acres, which was a division of mowing land belonging to lot no 26. which he purchased of Joshua Carter, and part of the rail fence that belongs to it on meeting house hill. Besides the 8th acre lot, I pay him 12th. I am to have the wood-land that belongs to the 8 acres, & Earle is to have the woodland that belongs to the Caerch homelot. Both signed —

1683ollar 7. sold to Thomas Wells my 11 Common lot of meadow
 at Pacomlet which I had of Fishers, and my 9 commons
 I had of Mayor Kasher, with the 2 homelot belonging
 to them, and that land I bought of John Barnard to the homelot
 by his. For this land Thos. Wells is to pay 50th in money,
 within a month. Six to do up well the fence that belongs

Pittsfield

In 1735 June 27. General Court granted to town of Boston 3 townships
 see 9 6 miles square — No 1. or Coleraine, No 2. Chalkmont of part of Heath,
 Deeds p. 218 and Pittsfield. Boston sold Pittsfield to Jacob Wendell. Previous
 to the grant & sale, the General Court had granted John Stoddard
 1000 acres in the Pontossuck tract; which were reserved in the grant & sale
 In laying out this tract; in 1738, they calculated for 36 square miles
 or 23040 acres, and 1000 acres more — in all 24040 acres.
 It was 462 $\frac{3}{4}$ chains wide (lines N. 20. E. or S. 20. W.) and 520 chains long
 (N. 20. N. or E. 20. S.) — 4200 chains. Wm. allowed Dec. 1738 S. E. corner was $\frac{1}{4}$ mile east of Housatonic river.
 Caleb Lyman of thos, selectmen of Boston sold the 6 miles square to Jacob
 Wendell in ^{March 13} 1737 for 1320 £. Stoddard had purchased of the Indians
 several grants & leases besides the 1000 acres, and in 1741 May 29.
 Wendell Deeded to Stoddard $\frac{1}{3}$ of the whole township, in order to
 settle all claims. Wendell now owned $\frac{2}{3}$ of the township including the
 1000 acres, and Stoddard owned $\frac{1}{3}$ of the whole. Settlements in 1741
 1742, &c. prevented by expectation of war, which began in 1744. Some
 lots purchased in 1745, but no clearings until 1749, when some lands
 were cleared. No settlement until 1752. 60 settling lots laid out 11,000 acres

Samuel Carter of Deerfield, who removed to Norwalk. His
 dependant J. M. Carter, (H.C. 1836) says Samuel Carter, his great-great
 grandfather, was born in London, & when 12 years old, standing upon a wharf, where
 a vessel bound for Boston was about to sail, was asked by the captain if he would
 like to go to America; he replied yes, and without reflection was taken on board;
 on his arrival the captain sold him for his passage. He was brought
 up a farmer. He settled in Deerfield, & after the captivity of his family
 settled in Norwalk, but according to tradition, had not then recovered
 his son Ebenezer. After he had a family, he wrote to his parents
 & had letters from them. They supposed he had fallen into the dock and
 was drowned. - This I get through Rev. Dr. Field of Haddam, Nov. 1847,
 and from Mr. Gill Carter of Norwalk, Dec. 1847. 3 of Samuel Carter's children
 remained in Canada. Only Ebenezer remained in New England.
 Samuel had a wife but no more children. He died at Norwalk. Ebenezer had one son

At a meeting of the proprietors of the common or undivided lands in Deerfield May 7, 1723, the following list prepared by a committee was accented; it is a list of the common rights, each inhabitant, or a full list of the proprietors, with quantity of land common rights of each. It was voted that each man's interest in the undivided lands ~~shall~~ according to this list, & that all future divisions should be set out accordingly. 13½ acres an account a Common, and the lesser quantities parts of a Common. By grant of the General Court, Deerfield at this time contained a quantity equal to 7 miles square, or 49 square miles. It was afterwards extended farther west.

170 Chesterfield — from Joseph Burnell, Sept. 11, 1833 — he was born Dec. 1756.
ms. 14.254

his father, Joseph Burnell, removed from Dudley to Chesterfield in June 1762 when he was between 5 & 6 years old. Went through Northampton; the buildings & everything in it looked old — no inhabitants from Jona. Phelps, Black-peter to Chesterfield — there was a clearing in Willoughby called Fairfield's Camp, where Capt. Samuel Fairfield afterwards lived. The road from Williamsburgh to Chesterfield was nothing but a wooded path among the trees; the small trees were cut away, logs rolled out & large trees marked; a cart was got through with much difficulty. Mr. Burnell the 6th settler in the town.

George Buck from near Mutton, was the first man that wintered there; he settled beyond Westfield river, on what is called Muland Street. He spent the winter there alone; used to draw out provisions from Northampton on a horse sled. This was probably the winter of 1760-61.

Prince Cowing established himself near Buck.

Robert Hammetton " " on the Hammetton place toward Westhampton.

Abijah Tucker from Pomfret, Conn. on the road having north & south
Chesterfield meeting-house — on the Gore — now in Goshen.

David Stearns, from Dudley, near Tucker, now in Goshen.

Joseph Burnell from Dudley, was the next settler — about 2 miles south of Westfield Stearns, on same road — now Chesterfield. Bought his land of Gadbyman.

Robert Webster came the same season, after Burnell. David Stearns came in the winter of 1761-62. Stearns & Tucker, removed to Northampton, & spent the winter there — one or both at Jona. Phelps house, because their wives were near the time of childbirth — children were born there. — Archelaus Anderson was the first that settled in the middle of the town — owned all the land about the meeting houses. In 1763, or 1764, Ephraim Truesdale, a young man, got lost in attempting to go from Fairfield's Camp to Chesterfield — there was snow on the ground and it was a snowy day. About three years after his bones were found on the land of Thomas Brown, on the Gore (Goshen). Some of the bones were missing, probably carried off by wild animals. They were identified as his by a large pocket knife found with them. It had a large blade, a small blade, a saw, &c. &c. was recognized by his father who lived in Chesterfield, and others.

Mr. Burnell says Chesterfield was originally granted to soldiers. Their rights were bought up by the Hingham people & individuals in various places. Some of the lands were called Hingham lands, & some were called Quabbin lands. The town was incorporated in 1762.

Bridge over Westfield river. This was built by the county (assisted by subscriptions) in 1762. Timo. Dwight & Selo. Stoddard two of committee. The bridge was in

"New Hingham, now Chesterfield. Committee presented account to Court Aug. 1762, £83.15.4, and it was allowed. Bridge not finished, he attended 1763 they presented another account £29.15.0. This was allowed. Court allowed Dwight 9.4.8 for his trouble & Stoddard 3.0.0 for his — Total county expense £125.15.0

Road to Chesterfield by Roberts meadow & Bascom's Hill was petitioned for by Northampton people Feb. 1763 — postponed.

"Hingham men to be warned from N.H." about 1764 or 1762. Abijah Tucker & Lucy, & dau. Patience John Narramore & Patience, & dau. Catherine; David Stearns & Hannah, & ch. David, Saml. John Samuel Lys. & H. Ezekiel Reed & Hannah & ch. Benja. Wm. Hammet, Jesse & Jose, Rezek, Turner. Paid him for the toll with 1761 — Wm. Grant; John Narramore, Seth Sylvester, Benja. Bryant, Gers. DuBryant Benjamin Kid, — — — — — Bonney.

Damon, son of Amos Damon — born 1762. Says his father removed from Scituate to Chesterfield in 1768 — came through Northampton and staid at John Roman's tavern on plain. Came in horse-carts — pretty good road to Roberts Meadow, then a mere cut path where Turnpike was afterwards. Difficult for waggoners. Lived near Damon's tavern. There was then in Chesterfield, Benjamin Kidd, Robert Hammetton, Curtis

John Burnell, brother of Joseph above, died 1837 aged 87 — came to Chesterfield when he was 11 years old, that is, in 1761. This differs from Joseph's story one year — probably correct.

Worthington - from Dan Daniels, Esq. Oct. 16. 1832 - born 1759

His father, Nathaniel Daniels, from Pomfret, went up in May 1766, and his son Dan with him. He cleared some land, built a log house and a potash that season - remained his family next season 1767. Previous to him a Simonds fled from his creditors, & built a log house in the woods in the same place; he owned nothing, was a squatter - & removed a few years after. He was the first inhabitant - about 1764. The second was Alexander Miller from Voluntown on the Buffington place; he removed there in 1765. The third was Daniels, on the farm north of Miller. Naham Eager, of Shrewsbury, began to work there the same season with Daniels 1766 - was not married until 2 or 3 years after. Dan Daniels was the first boy in Worthington. Samuel Crosby came in 1767 or 1768, from Thompson, and Samuel Clapp in 1768. In 1769, many families moved in - Benjamins, Harrington, Herrick, Kinne, Deo Maish, &c.

The first settlers went through Williamsburg & Chesterfield from Northampton. Eager built a sawmill in 1767. Previous to this boards & plank were sawed by hand in Chesterfield, when Anderson had a place fixed for the purpose on a side hill. The logs were rolled on until they were high enough from the ground for a man to stand upright, under them (probably some digging under to lower the earth). The saw was like a mill saw but finer. One man stood on top of the log & lifted the saw up, & the man under the log pulled it down. All the cutting was done in going down. When the saw came to the mass of stick on which the log rested, the log was raised & the stick moved. The plank for Daniels' potash vats & floor in Worthington were sawed here by Anderson. The boards & plank for the first settlers in Chesterfield were sawed in the same manner. The first settlers of Worthington came to Northampton for grinding (used to bring grain with an ox cart) until about 1767 or 8, when a gristmill was built in Chesterfield, where Pierce's mill was afterwards; they then went to that mill two or three years until about 1769, when the proprietors of Worthington built a mill - the builder was Col. Willard one of the proprietors. A bridge was built across Westfield river about 1769 - above the present wooden bridge 100 rods. A school was first kept in 1769 or 1770 in S. Miller's house; he had previous to this built a framed house - kept tavern. Moses Soule kept the school. - There was travel through here - a marked road extended on to Partridgefield, &c.

The Proprietors of Worthington were Col. John Worthington, Josiah Dwight, Timothy Dwight, Salah Barnard of Deerfield, and Col. Willard of (some town east). Was purchased by them of the state, Daniels says. Was numbered with Partridgefield & other towns - 1, 2, 3, &c. The town was incorporated in 1768. The settlers intended to call it Basham from an oak hill of that name; but Col. Worthington gave them some inducement to name it after him.

Dea Jona. Brewster came to W. about 1775, from Preston or near there - his sons Elisha, Jonathan, Jonah &c. His father's name was Jonathan.

Pelaticus Webster lived in Lebanon. His son Pelaticus was minister of Greenwich but was dismissed - went to Philadelphia. Two sons of Lebanon Pelaticus settled in Worthington, Constant, & Oliver.

Worthington was incorporated in 1768 - was No. 3. Aaron Willard bought it of a committee of Gen. Court at public auction in 1762 for himself, John Worthington, Timo. Dwight Jr., Josiah Dwight & Salah Barnard - 4 first $\frac{1}{6}$ each & S. Barnard $\frac{1}{3}$. They sold it in 100 acre lots. Reserved $\frac{3}{63}$ parts & had sold $\frac{1}{63}$ part to a --- Clapps. Had Becket & Murray fields South, Chesterfield E. No 5 (or Cusumington) N. and No 2 (Partridgefield?) and Hartwood W.

Feb 1763. John Chandler of Worcester, John Murray of Rutland, Abigail Willard of Lancaster, & Timothy Paine of Worcester, in a petition to the county court, stated that they were planting out great expense a township of land called No. 9. adjoining Blandford Westfield, Southampton & Northampton, which they purchased of the province of Massachusetts Bay in June 1762. They petitioned for a highway to Northampton — suggested that the present paths used by Northampton people would extend about two thirds of the way. They wished the road laid from the Westfield road, south of Sandy Hill gutter through Inner Commons & part of Long Division to the east branch of Mohican, crossing that branch at the common fording place above King's Mill, & thence through Long Division to the east line of their township or tract of land. Petition not granted.

There were some settlers on this tract previous to this. They were said to reside at the "Branches of Westfield River". In Nov. 1762 Zebulon Fuller, David Scott, Ebenezer Webber, William Miller, of the Branches, were prosecuted for a riot on the 24th of April 1762. They assailed the house of Joseph Morse in said place, & destroyed part of the roof, while the family were in the house. Fuller & Miller had a verdict of guilty, and were fined 15 each & costs of court £ 8. 0. 7 each. Miller appealed to the Superior Court & John Miller of N.H. & Elias Lyman of S.H. were his sureties. David Scott & Ebenezer Webber were afterwards fined, & bound to good behavior.

Murrayfield was first incorporated as a town in 1765. It was No 9. It had Becket, &c. W. Northampton & Southampton &c.

Becket, called No. 4. was incorporated 1765 a little before Murrayfield.

The Committee on Highway-Encroachments, beg leave to report to the town, that they find serious difficulties in their way, some of which they will mention:-

- 1st. The courses, distances & widths of some of the ancient highways are not to be found on record.
- 2d. Of some highways that are recorded, the starting point and bounds referred to in the record, cannot be ascertained.
- 3d. In some cases, where a starting point or some other limit can be found, the old lines cannot be followed, owing to mistakes, difference in compasses, &c.
